CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q (this "Quarterly Report") includes "forward-looking" statements within the meaning of the Private Securities Litigation Reform Act of 1995, as well as historical information. Such forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements, or industry results, to be materially different from anticipated results, performance or achievements expressed or implied by such forward-looking statements. When used in this Quarterly Report, statements that are not statements of current or historical fact may be deemed to be forward-looking statements. Without limiting the foregoing, the words "plan," "intend," "may," "will," "expect," "believe," "could," "anticipate," "estimate," "continue" or similar expressions or other variations or comparable terminology are intended to identify such forward-looking statements, although some forward-looking statements are expressed differently. We remind readers that forward-looking statements are merely predictions and therefore inherently subject to uncertainties and other factors and involve known and unknown risks that could cause the actual results, performance, levels of activity or our achievements or industry results, to be materially different from any future results, performance levels of activity or our achievements or industry results, to be materially different from any future results, performance levels of activity or our achievements or industry results expressed or implied by such forward-looking statements. Factors that could cause our actual results to differ materially from anticipated results expressed or implied by forward-looking statements include, among others:

- our ability to obtain sufficient capital or strategic business arrangements to fund our operations and expansion plans, including meeting our financial
 obligations under various licensing and other strategic arrangements, the funding of our clinical trials for product candidates in our development
 programs for our Immuno-Oncology Program, Ischemic Repair Program, and our Immune Modulation Program and the commercialization of the
 relevant technology;
- our ability to build and maintain the management and human resources infrastructure necessary to support the growth of our business;
- our ability to integrate our acquired businesses successfully and grow such acquired businesses as anticipated, including expanding our PCT business:
- whether a large global market is established for our cell-based products and services and our ability to capture a meaningful share of this market;
- scientific and medical developments beyond our control;
- our ability to obtain and maintain, as applicable, appropriate governmental licenses, accreditations or certifications or comply with healthcare laws and regulations or any other adverse effect or limitations caused by government regulation of our business;
- whether any of our current or future patent applications result in issued patents, the scope of those patents and our ability to obtain and maintain
 other rights to technology required or desirable for the conduct of our business; and our ability to commercialize products without infringing the
 claims of third party patents;
- whether any potential strategic or financial benefits of various licensing agreements will be realized;
- the results of our development activities, including the results of our Intus Phase 3 clinical trial of NBS20, being developed to treat metastatic melanoma; and the results of our PreSERVE acute myocardial infarction (AMI) Phase 2 clinical trial of NBS10 being developed to treat acute myocardial infarction for which we released results of the primary analysis on November 17, 2014; however, these trials are subject to ongoing analysis, and while currently reported results may appear promising, doesn't assure that further analysis won't reveal negative, or less promising, results:
- our ability to complete our other planned clinical trials (or initiate other trials) in accordance with our estimated timelines due to potential delays associated with enrolling patients due to the novelty of the treatment, the size of the patient population and the need of patients to meet the inclusion criteria of the trial or otherwise; and
- our ability to satisfy our obligations under our credit facility; and
- the other factors discussed in "Risk Factors" in our Annual Report on Form 10-K filed with the Securities and Exchange Commission (the "SEC") on March 2, 2015 (our "2014 Form 10-K"), and elsewhere in the Annual Report on our 2014 Form 10-K.

The factors discussed herein, and in the Company's other periodic filings with the SEC which are available for review at www.sec.gov under "Search EDGAR for Company Filings" could cause actual results and developments to be materially different from those expressed or implied by such statements. All forward-looking statements attributable to us are expressly qualified in their entirety by these and other factors. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date hereof. Except as required by law, the Company undertakes no obligation to update any forward-looking statements, whether as a result of new information, future events or otherwise.

NEOSTEM, INC. AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1 - The Business

Overview

NeoStem, Inc. ("we," "NeoStem" or the "Company") is a vertically integrated, clinical-stage biopharmaceutical company that is pursuing the preservation and enhancement of human health through the development of individualized cell-based therapeutics that leverage the body's natural ability to heal and fight disease. Our diversified pipeline and unique capabilities for innovative, cost-effective and efficient in-house development set us apart in this emerging industry as we work to fundamentally change the treatment paradigm for several serious diseases. In the coming weeks, NeoStem intends to change its corporate name and brand identity. The new corporate name is another step in the evolution of the Company, emphasizing our unique integrated approach to cell therapy and our therapeutic development focus on immune therapy.

Our most advanced clinical program is based on our dendritic cell/cancer cell technology. It is focused on the development of an innovative cancer treatment that is designed to target the cells responsible for tumor growth and metastasis, known as cancer or tumor initiating cells (CICs), using purified CICs from a patient's own tumor as an antigen source to induce or enhance an anti-tumor immune response in the patient. Our lead product candidate based on this platform technology, NBS20, targets malignant melanoma as an initial indication. NBS20 is being studied in patients with recurrent Stage III or Stage IV metastatic melanoma. The program has been granted Fast Track and Orphan designation by the Food and Drug Administration (FDA) as well as Advanced Therapeutic Medicinal Product classification by the European Medicines Agency (EMA). The protocol for the Phase 3 study, known as the Intus study, is the subject of a Special Protocol Assessment (SPA) by FDA. Our SPA letter states that our Phase 3 clinical trial is adequately designed to provide the necessary data that, depending on outcome, could support a Biologics License Application (BLA) seeking marketing approval of NBS20. This protocol calls for randomizing 250 patients. Patient screening began in the first quarter of 2015 and randomization of the first patient was announced in April 2015. Interim analysis of the data is targeted for the fourth quarter of 2017. We are also evaluating other clinical indications for which we may advance this program, including ovarian, liver, colon and lung cancers.

We are also developing therapies that are designed to utilize CD34 cells to regenerate tissue impacted by ischemia. Ischemia occurs when the supply of oxygenated blood in the body is restricted, causing local tissue distress and death. Results of ischemia include conditions such as acute myocardial infarction (heart attack) (AMI), chronic heart failure (CHF) and critical limb ischemia (CLI). We seek to improve oxygen delivery to affected tissues through the development and formation of new blood vessels. Initial investigations for this therapeutic platform have focused on NBS10, our most clinically advanced product candidate in our ischemic repair program. NBS10 is designed to prevent heart failure and major adverse cardiac events following a severe heart attack, known as an ST segment elevation myocardial infarction (STEMI). At the American Heart Association's Scientific Sessions in November 2014, we reported six month data from the primary analysis of our 161 patient PreSERVE AMI study, and at the American College of Cardiology's 64th Annual Scientific Sessions and Expo in March 2015, we presented updated safety and exploratory efficacy results from the 12 month follow-up for the PreSERVE AMI trial. Our interim conclusions based on the six and twelve month results, which represent twelve and eighteen months median of patient follow-up respectively, are that (i) there is a CD34 does-dependent trend in reduction of major adverse cardiac events (MACE), including a signal for a mortality benefit based on the 12 month data; (ii) there is a CD34 cell dose-dependent trend in improvement of left ventricular ejection fraction and reduction in infarct size; and (iv) there is no correlation between experimental endpoint of perfusion and treatment.

We expect to complete the PreSERVE AMI study as defined through the final three-year follow-up and, in the meantime, plan to refine our development plan in consultation with our medical advisory board and relevant authorities in the second half of 2015. We also are evaluating other clinical indications that involve ischemia into which we may advance this program, including CLI and CHF.

We are also developing a therapy that is designed to utilize Regulatory T Cells (Tregs) to treat diseases caused by imbalances in an individual's immune system. This novel approach seeks to restore immune balance by enhancing Treg cell number and function. Tregs are a natural part of the human immune system and regulate the activity of T effector cells, the cells that are responsible for protecting the body from viruses and other foreign antigens. When Tregs function properly, only harmful foreign materials are attacked by T effector cells. In autoimmune disease, it is thought that deficient Treg activity permits the T effector cells to attack the body's own tissues. We have received a letter from the FDA stating that we may proceed on a Phase 2 study of NBS03D, a Treg based therapeutic being developed to treat type 1 diabetes mellitus (T1DM) in adolescents, and we plan to initiate the trial in late 2015 or 2016 depending on resource availability. We are evaluating other clinical indications into which we may advance this program, including steroid resistant asthma, multiple sclerosis, chronic obstructive pulmonary disease, inflammatory bowel disease, graft versus host disease, lupus, and rheumatoid arthritis.

Finally, we are actively exploring means to facilitate development in Japan, including filing an IND in Japan for one or more programs under Japan's regenerative medicine law. Japan's regenerative medicine law enables an expedited path to conditional approval for regenerative medicine products that show sufficient safety evidence and signals of efficacy. Potential indications for this unique opportunity include, among others, our immune-oncology program in liver cancer and our ischemic repair program in CLI.

We believe that cell-based therapies have the potential to create a paradigm change in the treatment for a variety of diseases and conditions and we are evaluating other programs that we view as holding particular promise, including an aesthetics program for a topical skin application and a very small embryonic like (VSELTM) stem cell program for the treatment of retinal degeneration, bone restoration and wound healing.

Through our wholly owned subsidiary, Progenitor Cell Therapy, LLC (PCT), we are recognized as a world industry leader in providing high quality innovative and reliable manufacturing capabilities and engineering solutions (e.g., process development) in the development of cell-based therapies. We currently operate three facilities qualified under Good Manufacturing Practices (cGMPs) in Allendale, NJ, Mountain View, CA and Irvine, CA, and are poised to expand our facilities internationally. In addition to leveraging this core expertise in the development of our own products, we partner opportunistically with other industry leaders who recognize our unique ability to significantly improve their manufacturing processes and supply clinical and commercial material.

We look forward to further advancement of our cell-based therapies to the market and to helping patients suffering from life-threatening medical conditions. Coupling our development expertise with our strong process development and manufacturing capability, we believe the stage is set for us to realize meaningful clinical development of our own proprietary platform technologies and manufacturing advancements, further positioning NeoStem as a leader in the cell therapy industry.

We anticipate requiring additional capital in order to fund the development of cell therapy product candidates and to grow the PCT business. To meet our short and long term liquidity needs, we currently expect to use existing cash and cash equivalents balances, our revenue generating activities, and a variety of other means, including the continued use of a common stock purchase agreement with Aspire Capital (see Note 15). Other sources of liquidity could include additional potential issuances of debt or equity securities in public or private financings, additional warrant exercises, option exercises, partnerships and/or collaborations, and/or sale of assets. In addition, we will continue to seek as appropriate grants for scientific and clinical studies from various governmental agencies and foundations. We believe that our current cash, cash equivalents and marketable securities balances and revenue generating activities, along with access to funds under our agreement with Aspire Capital, will be sufficient to fund the business through the next 12 months. While we continue to seek capital through a number of means, there can be no assurance that additional financing will be available on acceptable terms, if at all. If we are unable to access capital necessary to meet our long-term liquidity needs, we may have to delay or discontinue the acquisition and development of cell therapies, and/or the expansion of our business or raise funds on terms that we currently consider unfavorable.

Basis of Presentation

The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("generally accepted accounting principles") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, the accompanying Consolidated Financial Statements of the Company and its subsidiaries, which are unaudited, include all normal and recurring adjustments considered necessary to present fairly the Company's financial position as of March 31, 2015 and the results of its operations and its cash flows for the periods presented. The unaudited consolidated financial statements herein should be read together with the historical consolidated financial statements of the Company for the years ended December 31, 2014, 2013 and 2012 included in our Annual Report on Form 10-K for the year ended December 31, 2014. Operating results for the three months ended March 31, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements. Estimates also affect the reported amounts of revenues and expenses during the reporting period. The Company bases its estimates on historical experience and other assumptions believed to be reasonable under the circumstances, the results of which form the basis for making judgments

<u>Index</u>

about the carrying value of assets and liabilities that are not readily apparent from other sources. The Company makes critical estimates and assumptions in determining the fair values of goodwill for potential goodwill impairments for our reporting units, fair values of In-Process R&D assets, fair values of acquisition-related contingent considerations, useful lives of our tangible and intangible assets, allowances for doubtful accounts, and stock-based awards values. Accordingly, actual results could differ from those estimates and assumptions.

An accounting policy is considered to be critical if it is important to the Company's financial condition and results of operations and if it requires management's most difficult, subjective and complex judgments in its application.

Certain reclassifications have been made to the Consolidated Financial Statements and Notes to the Consolidated Financial Statements for the three months ended March 31, 2014 to conform to the presentation for the three months ended March 31, 2015.

Note 2 - Summary of Significant Accounting Policies

In addition to the policies below, our significant accounting policies are described in Note 2 of the Notes to Consolidated Financial Statements included in our 2014 Form 10-K. There were no changes during the three months ended March 31, 2015.

Cash and Cash Equivalents

Cash and cash equivalents include short-term, highly liquid, investments with maturities of 90 days or less when purchased.

Marketable Securities

The Company determines the appropriate classification of our marketable securities at the time of purchase and reevaluate such designation at each balance sheet date. All of our marketable securities are considered as available-for-sale and carried at estimated fair values and reported in either cash equivalents or marketable securities. Unrealized gains and losses on available-for-sale securities are excluded from net income and reported in accumulated other comprehensive income (loss) as a separate component of stockholders' equity. Other income (expense), net, includes interest, dividends, amortization of purchase premiums and discounts, realized gains and losses on sales of securities and other-than-temporary declines in the fair value of securities, if any. The cost of securities sold is based on the specific identification method. We regularly review all of our investments for other-than-temporary declines in fair value. Our review includes the consideration of the cause of the impairment, including the creditworthiness of the security issuers, the number of securities in an unrealized loss position, the severity and duration of the unrealized losses, whether we have the intent to sell the securities and whether it is more likely than not that we will be required to sell the securities before the recovery of their amortized cost basis. When we determine that the decline in fair value of an investment is below our accounting basis and this decline is other-than-temporary, we reduce the carrying value of the security we hold and record a loss for the amount of such decline.

Accounts Receivable

Accounts receivable are carried at original invoice amount less an estimate made for doubtful accounts. The Company applies judgment in connection with establishing the allowance for doubtful accounts. Specifically, the Company analyzes the aging of accounts receivable balances, historical bad debts, customer concentration and credit-worthiness, current economic trends and changes in the Company's customer payment terms. Significant changes in customer concentrations or payment terms, deterioration of customer credit-worthiness or weakening economic trends could have a significant impact on the collectability of the receivables and the Company's operating results. If the financial condition of the Company's customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required. Management regularly reviews the aging of receivables and changes in payment trends by its customers, and records a reserve when it believes collection of amounts due are at risk.

Deferred Costs

The Company, through its PCT subsidiary, regularly enters into contracts with clients for services that have multiple stages and are dependent on one another to complete the contract and recognize revenue. The Company's inventory primarily represents work in process for costs incurred on such projects at PCT that have not been completed. The Company reviews these projects periodically to determine that the value of each project is stated at the lower of cost or market.

Share-Based Compensation

The Company expenses all share-based payment awards to employees, directors, advisors and consultants, including grants of stock options, warrants, and restricted stock, over the requisite service period based on the grant date fair value of the awards. Advisor and consultant awards are remeasured each reporting period through vesting. For awards with performance-based vesting criteria, the Company estimates the probability of achievement of the performance criteria and recognizes compensation expense related to those awards expected to vest. The Company determines the fair value of option awards using the Black-Scholes option-pricing model which uses both historical and current market data to estimate the fair value. This method incorporates various assumptions such as the risk-free interest rate, expected volatility, expected dividend yield and expected life of the options or warrants. The fair value of the Company's restricted stock and restricted stock units is based on the closing market price of the Company's common stock on the date of grant.

Goodwill and Indefinite-Lived Intangible Assets

Goodwill is the excess of purchase price over the fair value of identified net assets of businesses acquired. The Company's intangible assets with an indefinite life are related to in process research and development (IPR&D) programs acquired in the acquisitions of Amorcyte, LLC (the "Amorcyte Acquisition") and California Stem Cell, Inc. (CSC), as the Company expects future research and development on these programs to provide the Company with substantial benefit for a period that extends beyond the foreseeable horizon. Intangible assets with indefinite useful lives are measured at their respective fair values as of the acquisition date. The Company does not amortize goodwill and intangible assets with indefinite useful lives. Intangible assets related to IPR&D projects are considered to be indefinite-lived until the completion or abandonment of the associated R&D efforts. If and when development is complete, which generally occurs if and when regulatory approval to market a product is obtained, the associated assets would be deemed finite-lived and would then be amortized based on their respective estimated useful lives at that point in time.

The Company reviews goodwill and indefinite-lived intangible assets at least annually, or at the time a triggering event is identified for possible impairment. Goodwill and indefinite-lived intangible assets are reviewed for possible impairment between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of the reporting unit or the IPR&D below its carrying value. The Company tests its goodwill and indefinite-lived intangible assets each year on December 31. The Company reviews the carrying value of goodwill and indefinite-lived intangible assets utilizing an income approach model, and, where appropriate, a market value approach is also utilized to supplement the discounted cash flow model. The Company makes assumptions regarding estimated future cash flows, discount rates, long-term growth rates and market values to determine each reporting unit's and IPR&D's estimated fair value. If these estimates or related assumptions change in the future, the Company may be required to record impairment charges. In accordance with its accounting policy, the Company tested goodwill for impairment as of December 31, 2014, 2013, and 2012 for its two reporting units as well as its IPR&D, and concluded there was no goodwill and IPR&D impairment. No triggering events were noted in the current period that would require interim impairment assessment.

Definite-Lived Intangible Assets

Definite-lived intangible assets consist of customer lists, manufacturing technology, tradenames, patents and rights. These intangible assets are amortized on a straight line basis over their respective useful lives. The Company reviews definite-lived intangibles assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset exceeds the fair value of the asset. If other events or changes in circumstances indicate that the carrying amount of an asset that the Company expects to hold and use may not be recoverable, the Company will estimate the undiscounted future cash flows expected to result from the use of the asset and/or its eventual disposition, and recognize an impairment loss, if any. The impairment loss, if determined to be necessary, would be measured as the amount by which the carrying amount of the assets exceeds the fair value of the assets. No triggering events were noted in the current period that would require interim impairment assessment.

Recognizing and Measuring Assets Acquired and Liabilities Assumed in Business Combinations at Fair Value

The Company accounts for acquired businesses using the purchase method of accounting, which requires that assets acquired and liabilities assumed be recorded at date of acquisition at their respective fair values. The consolidated financial statements and results of operations reflect an acquired business after the completion of the acquisition. The fair value of the consideration paid, including contingent consideration, is assigned to the underlying net assets of the acquired business based on their respective fair values. Any excess of the purchase price over the estimated fair values of the net assets acquired is recorded as goodwill. Amounts allocated to IPR&D are included on the balance sheet. Intangible assets, including IPR&D assets upon successful completion of the project and approval of the product, are amortized on a straight-line basis to amortization expense over the expected life of the asset. Significant judgments are used in determining the estimated fair values assigned to the assets acquired and liabilities assumed and in determining estimates of long-lived assets. Fair value determinations and useful life estimates are based on, among other factors, estimates of expected future net cash flows, estimates of appropriate discount rates used to present value expected from future net cash flow streams, the timing of approvals for IPR&D projects and the timing of related product launch dates, the assessment of each asset's life cycle, the impact of competitive trends on each asset's life cycle and other factors. These judgments can materially impact the estimates used to allocate acquisition date fair values to assets acquired and liabilities assumed and the resulting timing and amount charged to, or recognized in current and future operating results. For these and other reasons, actual results may vary significantly from estimated results.

The Company determines the acquisition date fair value of contingent consideration obligations based on a probability-weighted income approach derived from revenue estimates, post-tax gross profit levels and a probability assessment with respect to the likelihood of achieving contingent obligations including contingent payments such as milestone obligations, royalty obligations and contract earn-out criteria, where applicable. The fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in fair value measurement accounting. The resulting probability-weighted cash flows are discounted using an appropriate effective annual interest rate. At each reporting date, the contingent consideration obligation will be revalued to estimated fair value at that time and changes in fair value will be reflected as income or expense in our consolidated statement of operations. Changes in the fair value of the contingent consideration obligations may result from changes in discount periods and rates, changes in the timing and amount of revenue estimates and changes in probability assumptions with respect to the likelihood of achieving the various contingent payment obligations. Changes in assumptions utilized in our contingent consideration fair value estimates could result in an increase or decrease in our contingent consideration obligation and a corresponding charge to operating loss or gain.

Revenue Recognition

Clinical Services: The Company recognizes revenue for its (i) process development and (ii) clinical manufacturing services based on the terms of individual contracts.

We recognize revenues when all of the following conditions are met:

- persuasive evidence of an arrangement exists;
- delivery has occurred or the services have been rendered;
- the fee is fixed or determinable; and
- collectability is probable.

The Company considers signed contracts as evidence of an arrangement. The Company assesses whether the fee is fixed or determinable based on the payment terms associated with the transaction and whether the payment terms are subject to refund or adjustment. The Company assesses cash collectability based on a number of factors, including past collection history with the client and the client's creditworthiness. If the Company determines that collectability is not reasonably assured, it defers revenue

recognition until collectability becomes reasonably assured, which is generally upon receipt of the cash. The Company's arrangements are generally non-cancellable, though clients typically have the right to terminate their agreement for cause if the Company materially fails to perform.

Revenues associated with process development services generally contain multiple stages that do not have stand-alone values and are dependent upon one another, and are recognized as revenue on a completed contract basis. Progress billings collected prior to contract completion are recorded as unearned revenue until such time the contract is completed, which usually requires formal client acceptance.

Clinical manufacturing services are generally distinct arrangements whereby the Company is paid for time and materials or for fixed monthly amounts. Revenue is recognized when efforts are expended or contractual terms have been met.

Some client agreements include multiple elements, comprised of process development and clinical manufacturing services. The Company believes that process development and clinical manufacturing services each have stand-alone value because these services can be provided separately by other companies. The Company (1) separates deliverables into separate units of accounting when deliverables are sold in a bundled arrangement and (2) allocates the arrangement's consideration to each unit in the arrangement based on its relative selling price.

Clinical Services Reimbursements: The Company separately charges the customers for the expenses associated with certain consumable resources (reimbursable expenses) that are specified in each clinical services contract. On a monthly basis, the Company bills customers for reimbursable expenses and immediately recognizes these billings as revenue, as the revenue is deemed earned as reimbursable expenses are incurred. For the three months ended March 31, 2015 and 2014, clinical services reimbursements were \$0.5 million and \$0.7 million, respectively.

Processing and Storage Services: The Company recognizes revenue related to the collection and cryopreservation of autologous adult stem cells when the cryopreservation process is completed which is approximately 24 hours after cells have been collected. Revenue related to advance payments of storage fees is recognized ratably over the period covered by the advance payments.

Recently Issued Accounting Pronouncement

In May 2014, the FASB issued ASU 2014-09, "*Revenue from Contracts with Customers (Topic 606)*." The new revenue recognition standard provides a five-step analysis to determine when and how revenue is recognized. The standard requires that a company recognizes revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. This ASU is effective for annual periods beginning after December 15, 2016 and will be applied retrospectively to each period presented or as a cumulative-effect adjustment as of the date of adoption. The Company is currently evaluating the impact of the pending adoption of ASU 2014-09 on its consolidated financial statements.

In August 2014, FASB issued Accounting Standards Update (ASU) No. 2014-15 Preparation of Financial Statements - Going Concern (Subtopic 205-40), Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. Under generally accepted accounting principles (GAAP), continuation of a reporting entity as a going concern is presumed as the basis for preparing financial statements unless and until the entity's liquidation becomes imminent. Preparation of financial statements under this presumption is commonly referred to as the going concern basis of accounting. If and when an entity's liquidation becomes imminent, financial statements should be prepared under the liquidation basis of accounting in accordance with Subtopic 205-30, Presentation of Financial Statements - Liquidation Basis of Accounting. Even when an entity's liquidation is not imminent, there may be conditions or events that raise substantial doubt about the entity's ability to continue as a going concern. In those situations, financial statements should continue to be prepared under the going concern basis of accounting, but the provisions in this ASU should be followed to determine whether to disclose information about the relevant conditions and events. The ASU is effective for the annual period ending after December 15, 2016, and for annual periods and interim periods thereafter. Early application is permitted. The Company is currently evaluating the adoption of this ASU and its impact on the consolidated financial statements.

Note 3 - Acquisition

On May 8, 2014, NeoStem closed (the "Closing") its acquisition of CSC (the "CSC Acquisition"), pursuant to the terms of the Agreement and Plan of Merger, dated as of April 11, 2014 (the "Merger Agreement"), by and among NeoStem and its acquisition subsidiaries (collectively, "Subco"), CSC and Jason Livingston, solely in his capacity as CSC stockholder representative (together with his permitted successors, the "CSC Representative"). At Closing, Fortis Advisors LLC succeeded to the duties of the CSC Representative pursuant to the Merger Agreement. Pursuant to the Merger Agreement, on the Closing date, Subco was merged

with CSC (the "Merger"), with Subco surviving the Merger as a wholly-owned subsidiary of NeoStem. At Closing, Subco changed its legal name to NeoStem Oncology, LLC.

Aggregate Merger Consideration

Pursuant to the terms of the Merger Agreement, all shares of CSC common stock ("CSC Common Stock") and CSC preferred stock ("CSC Preferred Stock", and collectively with the CSC Common Stock, the "CSC Capital Stock") outstanding immediately prior to the Closing, and all outstanding unexercised options to purchase CSC Common Stock ("CSC Options") (treated as if a net exercise had occurred), were canceled and converted into the right to receive, in the aggregate (and giving effect to the liquidation preferences accorded to the CSC Preferred Stock):

- (1) An aggregate of 5,329,593 shares of NeoStem common stock (subject to payment of nominal cash in lieu of fractional shares) (the "Closing Merger Consideration").
- (2) if payable after the Closing, certain payments in an amount of up to \$90.0 million in the aggregate, payable in shares of NeoStem common stock or cash, in NeoStem's sole discretion, in the event of the successful completion of certain milestone events in connection with the CSC Acquisition (the "Milestone Payments", and together with the Closing Merger Consideration, the "Merger Consideration").

The fair value of the net assets acquired in the CSC Acquisition was \$19.4 million. The fair value of the consideration paid by NeoStem was valued at \$33.5 million, resulting in the recognition of goodwill in the amount of \$14.1 million. The consideration paid was comprised of equity issued and milestone payments. The fair value of the equity issued by NeoStem was valued at \$21.6 million. The fair value of the milestone payments was valued at \$11.9 million, and is contingent on the achievement of certain milestones associated with the future development of the acquired programs. Such contingent consideration has been classified as a liability and will be subject to remeasurement at the end of each reporting period.

The preliminary fair value of assets acquired and liabilities assumed on May 8, 2014 is as follows (in thousands):

Cash and cash equivalents	\$ 51
Accounts receivable trade, net	45
Prepaids and other current assets	19
Property, plant and equipment, net	1,041
Other assets	201
Goodwill	14,092
In-Process R&D	34,290
Accounts payable	(333)
Accrued liabilities	(2,014)
Deferred tax liability	(13,901)
Total	\$ 33,491

The total cost of the acquisition, which is still preliminary, has been allocated to the assets acquired and the liabilities assumed based upon their estimated fair values at the date of the acquisition. The final allocation is expected to be completed during the measurement period which is one year from the date of acquisition.

Pro Forma Financial Information

The following supplemental table presents unaudited consolidated pro forma financial information as if the closing of the CSC Acquisition had occurred on January 1, 2014 (in thousands, except per share amounts):

Net loss attributable to NeoStem	\$	(13,682)	\$	(15,375)
Net loss per share attributable to NeoStem	\$	(0.49)	\$	(0.46)

The unaudited supplemental pro forma financial information should not be considered indicative of the results that would have occurred if the CSC Acquisition had been consummated on January 1, 2014, nor are they indicative of future results.

Deferred costs, representing work in process for costs incurred on process development contracts that have not been completed, were \$3.6 million and \$2.6 million as of March 31, 2015 and December 31, 2014, respectively. The Company also has deferred revenue of approximately \$5.1 million and \$3.9 million of advance billings received as of March 31, 2015 and December 31, 2014, respectively, related to these contracts.

Note 6 - Loss Per Share

For the three months ended March 31, 2015 and 2014, the Company incurred net losses and therefore no common stock equivalents were utilized in the calculation of loss per share as they are anti-dilutive. At March 31, 2015 and 2014, the Company excluded the following potentially dilutive securities:

	March 31	,
	2015	2014
Stock Options	6,371,533	3,912,697
Warrants	3,545,756	4,491,028

Note 7 – Fair Value Measurements

The fair value of financial assets and liabilities that are being measured and reported are defined as the exchange price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants in the principal market at the measurement date (exit price). The Company is required to classify fair value measurements in one of the following categories:

Level 1 inputs are defined as quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 inputs are defined as inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities, either directly or indirectly.

Level 3 inputs are defined as unobservable inputs for the assets or liabilities. Financial assets and liabilities are classified based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement requires judgment, and may affect the valuation of the fair value of assets and liabilities and their placement within the fair value hierarchy levels.

The Company classifies the fair value of the warrant derivative liabilities as Level 3 inputs. These inputs require material subjectivity because value is derived through the use of a lattice model that values the derivatives based on probability weighted discounted cash flows. In May 2014, the warrants expired and the value of the warrant derivative liabilities were written off and recorded in other expenses in our consolidated statement of operations.

The Company classifies the fair value of contingent consideration obligations as Level 3 inputs. The Company has recognized contingent consideration obligations related to the following:

- In October 2011, in connection with the Amorcyte Acquisition, contingent consideration obligations were recognized relating to earn out payments equal to 10% of the net sales of the lead product candidate NBS10 (in the event of and following the date of first commercial sale of NBS10), provided that in the event NeoStem sublicenses NBS10, the applicable earn out payment will be equal to 30% of any sublicensing fees, and provided further that NeoStem will be entitled to recover direct out-of-pocket clinical development costs not previously paid or reimbursed and any costs, expenses, liabilities and settlement amounts arising out of claims of patent infringement or otherwise challenging Amorcyte's right to use intellectual property, by reducing any earn out payments due by 50% until such costs have been recouped in full (the "Earn Out Payments"). The contingent consideration fair value increased from \$5.5 million as of December 31, 2014 to \$5.6 million as of March 31, 2015. The change in estimated fair value is based on the impact of the time progression through the PreSERVE AMI Phase 2 clinical trial from December 31, 2014 to March 31, 2015, and has been recorded in other expenses in our consolidated statement of operations.
- In May 2014, in connection with the CSC Acquisition, contingent consideration obligations were recognized relating to milestone payments of up to \$90.0 million, based on the achievement of certain milestones associated with the future development of the acquired programs. The contingent consideration fair value increased from \$12.8 million as of December 31, 2014 to \$13.2 million as of March 31, 2015. The change in estimated fair value is based on the impact of the time progression to reach those milestones as of March 31, 2015, and has been recorded in other expenses in our consolidated statement of operations.

The fair value of contingent consideration obligations is based on discounted cash flow models using a probability-weighted income approach. The measurements are based upon unobservable inputs supported by little or no market activity based on our own assumptions and experience. The Company bases the timing to complete the development and approval programs on the current development stage of the product and the inherent difficulties and uncertainties in developing a product candidate, such as obtaining U.S. Food and Drug Administration (FDA) and other regulatory approvals. In determining the probability of regulatory approval and commercial success, we utilize data regarding similar milestone events from several sources, including industry

studies and our own experience. These fair value measurements represent Level 3 measurements as they are based on significant inputs not observable in the market. Significant judgment is employed in determining the appropriateness of these assumptions as of the acquisition date and for each subsequent period. Accordingly, changes in assumptions could have a material impact on the amount of contingent consideration expense we record in any given period.

The following table sets forth by level within the fair value hierarchy the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of March 31, 2015, and December 31, 2014 (in thousands):

			March 31, 2015						December 31, 2014

There were no transfers of financial instruments to or from Levels 1, 2 or 3 during the periods presented. For those financial instruments with significant Level 3 inputs, the following table summarizes the activity for the three months ended March 31, 2015 by type of instrument (in thousands):

		Three Months Ended

Ending liability balance	\$	18,810.0	\$	18,810.0		

Some of the Company's financial instruments are not measured at fair value on a recurring basis, but are recorded at amounts that approximate fair value due to their liquid or short-term nature, such as cash and cash equivalents, accounts receivable, and accounts payable. Our long-term debt and notes payable are carried at cost and approximate fair value due to their variable or fixed interest rates, which are consistent with the interest rates in the market.

Note 8 - Goodwill and Other Intangible Assets

The Company's goodwill was \$25.2 million as of March 31, 2015 and December 31, 2014.

Note 10 – Debt

Notes Payable

As of March 31, 2015 and December 31, 2014, the Company had notes payable of approximately \$1.7 million and \$1.6 million, respectively. The notes relate to certain insurance policies and equipment financings, require monthly payments, and mature within one to three years.

Long-Term Debt

On September 26, 2014, the Company entered into a loan and security agreement (the "Loan and Security Agreement")

<u>Index</u>

with Oxford Finance LLC (together with its successors and assigns, the "Lender") pursuant to which the Lender has agreed to lend the Company up to \$20.0 million. Upon entering into the Loan and Security Agreement, the Lender disbursed \$15.0 million ("Term Loan A"). Under the terms of the Loan and Security Agreement, during the Second Draw Period (as defined below), the Company may, subject to certain conditions, borrow from Lender an additional \$5.0 million ("Term Loan B", together with Term Loan A, the "Term Loans"). The "Second Draw Period" is the period of time: (a) commencing on the date that Lender receives evidence in a form and substance satisfactory to Lender that the Company has entered into a strategic arrangement with respect to the Company's NBS10 product candidate for ST Elevation Myocardial Infarction and receives an upfront payment of not less than \$10.0 million in connection therewith, and (b) ending on the earlier of September 19, 2015 or the occurrence of an event of default under the Term Loans. After repayment of all outstanding amounts due under two loans from TD Bank, N.A. in the amount of approximately \$3.1 million, and deductions for debt offering/issuance costs and interim period interest, the net proceeds from Term Loan A were \$11.7 million. The debt offering/issuance costs have been recorded as debt issuance costs in other assets in the consolidated balance sheet, and will be amortized to interest expense throughout the life of the Term Loans using the effective interest rate method. The proceeds from the Term Loans may be used to satisfy the Company's future working capital needs, including the development of its cell therapy product candidates.

The Company will make interest-only payments on the outstanding amount of Term Loans on a monthly basis until October 1, 2015 at a rate of 8.50% per annum; provided however, such interest-only period may be extended to April 1, 2016, in the event of either (1) the signing of a partnership for (x) traumatic brain injury indication for the Company's Ischemic Repair Program or for its VSELTM Program or (y) critical limb ischemia indication for its Ischemic Repair Program; or (2) the initiation of the Intus Phase 3 study evaluating the Company's product candidate NBS20 (also referred to as DC/TC) in patients with Stage IV or recurrent Stage III metastatic melanoma. Commencing on the date that principal payments commence, the Company will make consecutive monthly payments of principal and interest based upon a repayment schedule equal to (a) 36 months, if the Term Loans begin amortizing on October 1, 2015, or (b) 30 months, if the Term Loans begin amortizing on April 1, 2016. The Term Loans mature on September 1, 2018. At its option, the Company may prepay all amounts owed under the Loan and Security Agreement (including all accrued and unpaid interest), subject to a prepayment fee that is determined based on the date the loan is prepaid. The Company is also required to pay Lender a final payment fee equal to 8% of the Term Loan A and Term Loan B (if disbursed). The final payment fee will be amortized to interest expense throughout the life of the Term Loans using the effective interest rate method. The Company paid a facility fee in the amount of \$100,000 in connection with Term Loan A.

Under the Loan and Security Agreement and a related mortgage, the Company granted to Lender a security interest in all of the Company's real property and personal property now owned or hereafter acquired, excluding intellectual property, and certain other assets and exemptions. The Company also entered into a Mortgage and Absolute Assignment of Leases and Rents (the "Mortgage"). The Company also granted Lender a security interest in the shares of the Company's subsidiaries. The Loan and Security Agreement restricts the ability of the Company to: (a) convey, lease, sell, transfer or otherwise dispose of any part of its business or property; and (b) incur any additional indebtedness. The Loan and Security Agreement provides for standard indemnification of Lender and contains representations, warranties and certain covenants of the Company. Upon the occurrence of an event of default by the Company under the Loan and Security Agreement, Lender will have customary acceleration, collection and foreclosure remedies. There are no financial covenants associated to the Loan and Security Agreement. As of March 31, 2015, the Company was in compliance with all covenants under the Loan and Security Agreement.

Estimated future principal payments, interest, and fees due under the Loan and Security Agreement, assuming the Company does not draw down on the Term B Loan, are as follows:

Years Ending December 31,	(i	n millions)
2015	\$	2.1
2016		5.7
2017		5.7
2018		5.4
Total	\$	18.9

During the three months ended March 31, 2015, the Company recognized \$0.3 million of interest expense related to the Loan and Security Agreement.

Note 11 - Shareholders' Equity

Equity Issuances

In March 2014, the Company entered into a common stock purchase agreement (the "Purchase Agreement") with Aspire Capital Fund, LLC, an Illinois limited liability company ("Aspire Capital"), which provides that, subject to certain terms and conditions, Aspire Capital is committed to purchase up to an aggregate of \$30.0 million worth of shares (up to a maximum of 5.7 million shares) of the Company's common stock over the 24-month term. At the Company's discretion, it may present Aspire Capital with purchase notices from time to time to purchase the Company's common stock, provided certain price and other requirements are met. The purchase price for the shares of stock is based upon one of two formulas set forth in the Purchase Agreement depending on the type of purchase notice the Company submits to Aspire Capital, and is based on market prices of the Company's common stock (in the case of regular purchases) or a discount of 5% applied to volume weighted average prices (in the case of VWAP purchases), in each case as determined by parameters defined in the Purchase Agreement. As consideration for entering into the Purchase Agreement, we issued 150,000 shares of our common stock to Aspire Capital. During the three months ended March 31, 2015, the Company issued 2.2 million shares of common stock under the provisions of the Purchase Agreement with Aspire for gross proceeds of approximately \$7.4 million. As of March 31, 2015, the remaining amount available to the Company under the Purchase Agreement was \$11.7 million, subject to an issuance limit of 1.4 million shares.

Note 12 - Share-Based Compensation

Share-based Compensation

We utilize share-based compensation in the form of stock options, warrants and restricted stock. The following table summarizes the components of share-based compensation expense for the three months ended March 31, 2015 and 2014 (in thousands):

Valuation Assumptions

The fair value of stock options and warrants at the date of grant was estimated using the Black-Scholes option pricing model. The expected volatility is based upon historical volatility of the Company's stock. The expected term for the options is based upon observation of actual time elapsed between date of grant and exercise of options for all employees. The expected term for the warrants is based upon the contractual term of the warrants.

Note 13 - Income Taxes

As of December 31, 2014, the Company had approximately \$177.2 million of Federal net operating loss carryforwards (NOLs) available to offset future taxable income expiring from 2025 through 2033. In accordance with Section 382 of the Internal Revenue code, the usage of the Company's NOLs could be limited in the event of a change in ownership. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income during the period when those temporary differences become deductible. If a change of ownership did occur there would be an annual limitation on the usage of the Company's losses which are available through 2032.

In assessing the realizability of deferred tax assets, including the NOLs, the Company assesses the available positive and negative evidence to estimate if sufficient future taxable income will be generated to utilize its existing deferred tax assets. Based on its assessment, the Company has provided a full valuation allowance against its net deferred tax assets as their future utilization remains uncertain at this time.

Deferred tax liabilities were \$18.2 million and \$18.2 million as of March 31, 2015 and December 31, 2014, respectively, and relate to the taxable temporary differences on (i) the goodwill recognized in the PCT acquisition in 2011, (ii) the in-process R&D intangible asset recognized in the CSC Acquisition in 2014. The taxable temporary difference associated with the goodwill, which is tax deductible and will be amortized over 15 years, will continue to increase the deferred tax liability balance over the amortization period, with an associated charge to the tax provision in each period. The deferred tax liabilities will only reverse when these indefinite-lived assets are sold, impaired, or reclassified from an indefinite-lived asset to a finite-lived asset.

As of March 31, 2015, management does not believe the Company has any material uncertain tax positions that would require it to measure and reflect the potential lack of sustainability of a position on audit in its financial statements. The Company will continue to evaluate its uncertain tax positions in future periods to determine if measurement and recognition in its financial statements is necessary. The Company does not believe there will be any material changes in its unrecognized tax positions over the next year.

The Company's Federal tax returns are currently being audited for the years 2012 and 2013. For years prior to 2011 the federal statute of limitations is closed for assessing tax. The Company's state tax returns remain open to examination for a period of 3 to 4 years from date of filing. The Company ceased doing business in China in 2012. After 2012, the Company had no foreign tax filing obligations. The returns filed for 2012 and prior are subject to examination for 5 years.

Note 14 - Commitments and Contingencies

Lease Commitments

The Company leases offices, of which certain have escalation clauses and renewal options, and also leases equipment under certain noncancelable operating leases that expire from time to time through 2018. In January 2014, the Company signed a new lease for a larger space at its New York office located at 420 Lexington Avenue, New York, NY 10170. This property is used as the Company's corporate headquarters. The new lease extends through 2018. In connection with the CSC Acquisition, the Company assumed a facility lease in Irvine, California, with a termination at the end of 2017. We recently signed an amendment expanding our office space in Irvine by 4,000 square feet, and extending the term through 2021. In accordance with the amendment, we plan to occupy the additional space by the second quarter of 2015.

We recently entered into an assignment agreement with an unaffiliated third party, effective February 19, 2015, for general office space located in Basking Ridge, New Jersey. The space is approximately 18,000 rentable square feet. Pursuant to the agreement, we are not obligated to make any payments for the space until January 2016. The base monthly rent during the period ending January 31, 2016 is currently \$25,000 and the lease term ends July 31, 2020. In addition, there are two (2) five (5) year renewal options. In connection with the assumption of the lease, the third party (a) conveyed its rights in various scheduled furniture and equipment and (b) paid the Company approximately \$580,000 which will offset the future rental payments to be paid by NeoStem until mid 2016. The amount paid to the Company included a security deposit of approximately \$115,000.

A summary of future minimum rental payments required under operating leases that have initial or remaining terms in excess of one year as of March 31, 2015 are as follows (in thousands):

Years ended	Operating Leases		
2015	\$	1,439.3	
2016		2,039.3	
2017		1,841.0	
2018		1,023.8	
2019 and thereafter		1,909.2	
Total minimum lease payments	\$	8,252.6	

Expense incurred under operating leases was approximately \$0.4 million and 0.2 million for the three months ended March 31, 2015 and 2014, respectively.

Contingencies

Under license agreements with third parties the Company is typically required to pay maintenance fees, make milestone payments and/or pay other fees and expenses and pay royalties upon commercialization of products. The Company also sponsors research at various academic institutions, which research agreements generally provide us with an option to license new technology discovered during the course of the sponsored research.

From time to time, the Company is subject to legal proceedings and claims, either asserted or unasserted, that arise in the ordinary course of business. While the outcome of pending claims cannot be predicted with certainty, the Company does not

<u>Index</u>

believe that the outcome of any pending claims will have a material adverse effect on the Company's financial condition or operating results.

Note 15 - Subsequent Events

Common Stock Issuances

Pursuant to the Purchase Agreement with Aspire (see Note 12), from April 1, 2015 through May 4, 2015, Aspire has purchased 0.8 million shares of the Company's common stock for an aggregate consideration of approximately \$2.0 million.

2015 Aspire Agreement

On May 4, 2015, the Company entered into a Common Stock Purchase Agreement with Aspire, whereby Aspire is committed to purchase up to an aggregate of \$30 million of shares of NeoStem common stock over a 24-month term.

Long-Term Debt: Interest-Only Period Extension

On April 29, 2015, the Company announced that the first patient in the Intus Study has been randomized. In accordance with the Company's Loan and Security Agreement with Oxford (see Note 10), based on the initiation of this study, the interest-only payment period on Term Loan A has been extended to April 1, 2016.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following Management's Discussion and Analysis of Financial Condition and Results of Operations contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under "Cautionary Note Regarding Forward-Looking Statements" herein and under "Risk Factors" in our annual report on Form 10-K for the year ended December 31, 2014. The following discussion should be read in conjunction with our consolidated financial statements and related notes thereto included elsewhere in this quarterly report and in our annual report on Form 10-K for the year ended December 31, 2014.

NeoStem, Inc. ("we," "NeoStem" or the "Company") is a vertically integrated, clinical-stage biopharmaceutical company that is pursuing the preservation and enhancement of human health through the development of individualized cell-based therapeutics that leverage the body's natural ability to heal and fight disease. Our diversified pipeline and unique capabilities for innovative, cost-effective and efficient in-house development set us apart in this emerging industry as we work to fundamentally change the treatment paradigm for several serious diseases. In the coming weeks, NeoStem intends to change its corporate name and brand identity. The new corporate name is another step in the evolution of the Company, emphasizing our unique integrated approach to cell therapy and our therapeutic development focus on immune therapy.

Our most advanced clinical program is based on our dendritic cell/cancer cell technology. It is focused on the development of an innovative cancer treatment that is designed to target the cells responsible for tumor growth and metastasis, known as cancer or tumor initiating cells (CICs), using purified CICs from a patient's own tumor as an antigen source to induce or enhance an anti-tumor immune response in the patient. Our lead product candidate based on this platform technology, NBS20, targets malignant melanoma as an initial indication. NBS20 is being studied in patients with recurrent Stage III or Stage IV metastatic melanoma. The program has been granted Fast Track and Orphan designation by the Food and Drug Administration (FDA) as well as Advanced Therapeutic Medicinal Product classification by the European Medicines Agency (EMA). The protocol for the Phase 3 study, known as the Intus study, is the subject of a Special Protocol Assessment (SPA) by FDA. Our SPA letter states that our Phase 3 clinical trial is adequately designed to provide the necessary data that, depending on outcome, could support a Biologics License Application (BLA) seeking marketing approval of NBS20. This protocol calls for randomizing 250 patients. Patient screening began in the first quarter of 2015 and randomization of the first patient was announced in April 2015. Interim analysis of the data is targeted for the fourth quarter of 2017. We are also evaluating other clinical indications for which we may advance this program, including ovarian, liver, colon and lung cancers.

We are also developing therapies that are designed to utilize CD34 cells to regenerate tissue impacted by ischemia. Ischemia occurs when the supply of oxygenated blood in the body is restricted, causing local tissue distress and death. Results of ischemia include conditions such as acute myocardial infarction (heart attack) (AMI), chronic heart failure (CHF) and critical limb ischemia (CLI). We seek to improve oxygen delivery to affected tissues through the development and formation of new blood vessels. Initial investigations for this therapeutic platform have focused on NBS10, our most clinically advanced product candidate in our ischemic repair program. NBS10 is designed to prevent heart failure and major adverse cardiac events following a severe heart attack, known as an ST segment elevation myocardial infarction (STEMI). At the American Heart Association's Scientific Sessions in November 2014, we reported six month data from the primary analysis of our 161 patient PreSERVE AMI study, and at the American College of Cardiology's 64th Annual Scientific Sessions and Expo in March 2015, we presented updated safety and exploratory efficacy results from the 12 month follow-up for the PreSERVE AMI trial. Our interim conclusions based on the six and twelve month results, which represent twelve and eighteen months median of patient follow-up respectively, are that (i) there is a CD34 does-dependent trend in reduction of major adverse cardiac events (MACE), including a signal for a mortality benefit based on the 12 month data; (ii) there is a SD34 cell dose-dependent trend in improvement of left ventricular ejection fraction and reduction in infarct size; and (iv) there is no correlation between experimental endpoint of perfusion and treatment.

We expect to complete the PreSERVE AMI study as defined through the final three-year follow-up and, in the meantime, plan to refine our development plan in consultation with our medical advisory board and relevant authorities in the second half of 2015. We also are evaluating other clinical indications that involve ischemia into which we may advance this program, including CLI and CHF.

We are also developing a therapy that is designed to utilize Regulatory T Cells (Tregs) to treat diseases caused by imbalances in an individual's immune system. This novel approach seeks to restore immune balance by enhancing Treg cell number and function. Tregs are a natural part of the human immune system and regulate the activity of T effector cells, the cells that are responsible for protecting the body from viruses and other foreign antigens. When Tregs function properly, only harmful foreign materials are attacked by T effector cells. In autoimmune disease, it is thought that deficient Treg activity permits the T effector

<u>Index</u>

cells to attack the body's own tissues. We have received a letter from the FDA stating that we may proceed on a Phase 2 study of NBS03D, a Treg based therapeutic being developed to treat type 1 diabetes mellitus (T1DM) in adolescents, and we plan to initiate the trial in late 2015 or 2016 depending on resource availability. We are evaluating other clinical indications into which we may advance this program, including steroid resistant asthma, multiple sclerosis, chronic obstructive pulmonary disease, inflammatory bowel disease, graft versus host disease, lupus, and rheumatoid arthritis.

Finally, we are actively exploring means to facilitate development in Japan, including filing an IND in Japan for one or more programs under Japan's regenerative medicine law. Japan's regenerative medicine law enables an expedited path to conditional approval for regenerative medicine products that show sufficient safety evidence and signals of efficacy. Potential indications for this unique opportunity include, among others, our immune-oncology program in liver cancer and our ischemic repair program in CLI.

We believe that cell-based therapies have the potential to create a paradigm change in the treatment for a variety of diseases and conditions and we are evaluating other programs that we view as holding particular promise, including an aesthetics program for a topical skin application and a very small embryonic like (VSELTM) stem cell program for the treatment of retinal degeneration, bone restoration and wound healing.

Through our wholly owned subsidiary, Progenitor Cell Therapy, LLC (PCT), we are recognized as a world industry leader in providing high quality innovative and reliable manufacturing capabilities and engineering solutions (e.g., process development) in the development of cell-based therapies. We currently operate three facilities qualified under Good Manufacturing Practices (cGMPs) in Allendale, NJ, Mountain View, CA and Irvine, CA, and are poised to expand our facilities internationally. In addition to leveraging this core expertise in the development of our own products, we partner opportunistically with other industry leaders who recognize our unique ability to significantly improve their manufacturing processes and supply clinical and commercial material.

We look forward to further advancement of our cell-based therapies to the market and to helping patients suffering from life-threatening medical conditions. Coupling our development expertise with our strong process development and manufacturing capability, we believe the stage is set for us to realize meaningful clinical development of our own proprietary platform technologies and manufacturing advancements, further positioning NeoStem as a leader in the cell therapy industry.

Results of Operations

Three Months Ended March 31, 2015 Compared to Three Months Ended March 31, 2014

Net loss for the three months ended March 31, 2015 was approximately \$19.2 million compared to \$13.8 million for the three months ended March 31, 2014.

Revenues

For the three months ended March 31, 2015, total revenues were approximately \$3.2 million compared to \$4.1 million for the three months ended March 31, 2014, representing a decrease of \$0.9 million, or 22%, which was primarily due to lower reported Clinical Services revenues. The decline, however, was impacted by the net incremental deferral of \$1.2 million of additional revenue during the three months ended March 31, 2015, based on our revenue recognition policy, as further discussed below. Revenues were comprised of the following (in thousands):

	Three Months Ended March 31,				
	2015			2014	
Clinical Services	\$	1,463.0	\$	2,567.0	
Clinical Services Reimbursables		528.5		748.0	
Processing and Storage Services		1,060.7		740.6	
Other		120.0		_	
	\$	3,172.3	\$	4,055.6	

• Clinical Services were approximately \$1.5 million for the three months ended March 31, 2015 compared to \$2.6 million for the three months ended March 31, 2014, representing a decrease of approximately \$1.1 million or 43%. The decrease was primarily due to \$0.6 million of lower process development revenue and \$0.5 million of lower clinical manufacturing revenue.

- Process Development Revenue Process development revenues were approximately \$0.2 million for the three months ended March 31, 2015 compared to \$0.8 million for the three months ended March 31, 2014. The decline, however, was impacted by the net incremental deferral of \$1.3 million in additional process development revenue during the three months ended March 31, 2015. In accordance with our revenue recognition policy, process development revenue is recognized upon contract completion (i.e., when the services under a particular contract are completed). Accordingly, there were numerous process development contracts still in process as of March 31, 2015, resulting in approximately \$4.5 million of deferred process development revenue as of March 31, 2015. Process development revenue will continue to fluctuate from period to period as a result of our process development revenue recognition policy, and the timing upon when services for a contract are completed.
- Clinical Manufacturing Revenue Clinical manufacturing revenues were approximately \$1.3 million for the three months ended March 31,
 2015 compared to \$1.8 million for the three months ended March 31,
 2014. The decrease is primarily due to a decrease in the number of patients our customers have enrolled and treated in clinical trials, which number varies depending on the stage of the clinical trial.
- Clinical Services Reimbursables were approximately \$0.5 million for the three months ended March 31, 2015 compared to \$0.7 million for the three months ended March 31, 2014, representing a decrease of approximately \$0.2 million or 29%. Generally, clinical services reimbursables correlate with clinical services revenues. However, differences in the cost of supplies to be reimbursed can vary greatly from contract to contract based on the cost of supplies needed for each client's manufacturing and development process and may impact this correlation. In addition, our terms for billing reimbursable expenses do not include a significant mark-up in the acquisition cost of such consumables, and as a result, changes in this revenue category have little impact on our gross profit and net loss.
- Processing and Storage Services were approximately \$1.1 million for the three months ended March 31, 2015 compared to \$0.7 million for the three months ended March 31, 2014, representing an increase of approximately \$0.3 million or 43%. The increase was primarily due to higher volume for our oncology stem cell processing services.

Operating Costs and Expenses of Revenues

For the three months ended March 31, 2015, operating costs and expenses totaled \$21.3 million compared to \$17.6 million for the three months ended March 31, 2014, representing an increase of \$3.7 million or 21%. Operating costs and expenses were comprised of the following:

- Cost of revenues were approximately \$3.4 million for the three months ended March 31, 2015 compared to \$3.8 million for the three months ended March 31, 2014, representing a decrease of \$0.5 million or 12%. Overall, negative gross profit for the three months ended March 31, 2015 was \$0.2 million or 6%, compared to gross profit for the three months ended March 31, 2014 of \$0.2 million or 6%. Gross profit percentages generally will increase/decrease as Clinical Service revenue increases/decreases. However, gross profit percentages will also fluctuate from period to period due to the mix of service and reimbursable revenues and costs.
- Research and development expenses were approximately \$6.8 million for the three months ended March 31, 2015 compared to \$4.8 million for the three months ended March 31, 2014, representing an increase of approximately \$2.0 million, or 43%.
 - Immuno-oncology Immuno-oncology expenses, including expenses associated with the Intus Phase 3 clinical trial for our lead immunotherapy product candidate NBS20, were \$1.9 million for the three months ended March 31, 2015. The targeted cancer immunotherapy program was acquired in the acquisition of California Stem Cell, Inc. (CSC) (the "CSC Acquisition").
 - Ischemic Repair Ischemic repair expenses were \$2.6 million for the three months ended March 31, 2015, representing an increase of approximately \$0.3 million compared to the three months ended March 31, 2014. Expenses associated with a potential critical limb ischemia development program in Japan were \$1.0 million for the three months ended March 31, 2015. These expenses were partially offset by approximately \$0.6 million of lower costs associated with the PreSERVE AMI Phase 2 clinical trial for our product candidate NBS10 for the three months ended March 31, 2015 compared to the same period in the prior year period.

- Immune Modulation Immune modulation expenses, including our efforts focused on initiating our Phase 2 study of NBS03D in type 1 diabetes, were \$1.3 million for the three months ended March 31, 2015, representing a slight increase compared to the three months ended March 31, 2014.
- Other Other research and development expenses were \$1.0 million for the three months ended March 31, 2015, representing a decrease of approximately \$0.2 million compared to the three months ended March 31, 2014. The decrease was due to lower expenses in non-core programs during the three months ended March 31, 2015 compared to the prior year, and lower equity-based compensation expense for the three months ended March 31, 2015 compared to the prior year period.
- Selling, general and administrative expenses were approximately \$11.1 million for the three months ended March 31, 2014, representing an increase of approximately \$2.1 million, or 24%. Equity-based compensation included in selling, general and administrative expenses for the three months ended March 31, 2015 was approximately \$3.2 million, compared to approximately \$3.3 million for the three months ended March 31, 2014, representing an decrease of \$0.1 million. Equity-based compensation expense is expected to fluctuate in future quarters as equity-linked instruments are used to compensate employees, consultants and other service providers. Non-equity-based general and administrative expenses for the three months ended March 31, 2015 were approximately \$7.9 million, compared to approximately \$5.7 million for the three months ended March 31, 2014, representing an increase of \$2.2 million. The increase was primarily related to one-time expenses associated with executive management changes in the first quarter of 2015, including new hire compensation-related costs as well as separation-related costs during the three months ended March 31, 2015. In addition, the increase reflects additional operating activities in connection with the CSC Acquisition on May 8, 2014. These increases were partially offset by lower strategic and corporate development activities for the three months ended March 31, 2015 compared to the same period in the prior year.

Historically, to minimize our use of cash, we have used a variety of equity and equity-linked instruments to compensate employees, consultants and other service providers. The use of these instruments has resulted in charges to the results of operations, which have been significant in the past.

Other Income (Expense)

Other expense, net, was \$546,000 for the three months ended March 31, 2015, compared with \$190,000 for the three months ended March 31, 2014, and primarily relates to the increases in the estimated fair value of our contingent consideration liabilities as a result of time lapses associated with potential earn out payments on the net sales of our product candidate NBS10 (in the event of and following the date of first commercial sale of NBS10) and potential future milestone payments related to the CSC acquisition.

Interest expense was \$551,000 for the three months ended March 31, 2015, compared with \$94,000 for the three months ended March 31, 2014. The increase was primarily due to interest expense associated with the \$15.0 million loan from Oxford Finance LLC in September 2014.

Provision for Income Taxes

The provision for income taxes for the three months ended March 31, 2015 and March 31, 2014 relate to the taxable temporary differences on the goodwill recognized in the PCT acquisition in 2011, which is being amortized over 15 years for tax purposes. A tax provision will continue to be recognized each period over the amortization period, and will only reverse when the goodwill is eliminated through a sale, impairment, or reclassification from an indefinite-lived asset to a finite-lived asset.

Analysis of Liquidity and Capital Resources

At March 31, 2015 we had cash and cash equivalents and marketable securities of approximately \$19.1 million, working capital of approximately \$11.6 million, and stockholders' equity of approximately \$50.4 million.

During the three months ended March 31, 2015, we met our immediate cash requirements through revenue generated from our PCT operations, existing cash balances, and the issuance of our common stock under our \$30 million common stock purchase agreement with Aspire (the "2014 Purchase Agreement"). Additionally, we used equity and equity-linked instruments to pay for services and compensation.

Net cash provided by or used in operating, investing and financing activities from continuing operations were as follows (in thousands):

	 Three Months Ended March 31,			
	 2015		2014	
Net cash used in operating activities	\$ (14,240.3)	\$	(11,253.5)	
Net cash provided by (used in) investing activities	6,704.5		(1,239.6)	
Net cash provided by financing activities	7,493.0		7,719.0	

Operating Activities

Our cash used in operating activities in the three months ended March 31, 2015 totaled approximately \$14.2 million, which is the sum of (i) our net loss of \$19.2 million, adjusted for non-cash expenses totaling \$4.9 million (which includes adjustments for equity-based compensation, depreciation and amortization, and changes in acquisition-related contingent consideration liabilities), and (ii) changes in operating assets and liabilities providing approximately \$0.05 million.

Our cash used in operating activities in the three months ended March 31, 2014 totaled approximately \$11.3 million, which is the sum of (i) our net loss of \$13.8 million, adjusted for non-cash expenses totaling \$4.6 million (which includes adjustments for equity-based compensation and depreciation and amortization), and (ii) changes in operating assets and liabilities providing approximately \$2.0 million.

Investing Activities

During the three months ended March 31, 2015, we spent approximately \$0.3 million for property and equipment. In addition, we sold approximately \$7.0 million marketable securities available for sale.

During the three months ended March 31, 2014, we spent approximately \$1.2 million for property and equipment.

Financing Activities

During the three months ended March 31, 2015, our financing activities consisted of the following:

• We raised gross proceeds of approximately \$7.4 million through the issuance of approximately 2.2 million shares of common stock under the provisions of the 2014 Purchase Agreement with Aspire.

During the three months ended March 31, 2014, our financing activities consisted of the following:

- We raised gross proceeds of approximately \$5.6 million through the issuance of approximately 0.8 million shares of common stock under the provisions of our equity line of credit with Aspire.
- We raised approximately \$1.4 million from the exercise warrants and options.

Liquidity and Capital Requirements Outlook

Liquidity

We anticipate requiring additional capital in order to fund the development of cell therapy product candidates, particularly in our Targeted Cancer Immunotherapy Program, Ischemic Repair Program and Immune Modulation Program, as well as to engage in strategic transactions. The most significant funding needs are anticipated to be in connection with the conduct of our Intus study which is expected to cost approximately \$43 million, for which we began activating clinical sites during the fourth quarter of 2014, and other costs related to the targeted cancer immunotherapy operations acquired in connection with the CSC Acquisition. The CSC Acquisition and the interim results of our PreSERVE AMI Phase 2 clinical trial reported in November 2014 could result in our re-prioritizing the development of certain of our other earlier stage clinical trials. We also anticipate requiring additional capital to grow the PCT business, including implementing additional automation capabilities and pursuing plans to establish commercial capacity, harmonize across locations, strengthen quality systems and expand internationally. We recently completed expansion in the Allendale, New Jersey facility adding laboratory, clean room suites and support facilities, and completed expansion

in the Mountain View, California facility adding manufacturing capacity with additional clean rooms, laboratory space and support facilities, and plan to increase manufacturing capacity to enable continuous cGMP improvement in Mountain View.

To meet our short and long term liquidity needs, we currently expect to use existing cash balances, our revenue generating activities, and a variety of other means. Those other means include the continued use of a common stock purchase agreement with Aspire. In 2014, we entered into a \$30 million Purchase Agreement, of which we had \$11.7 million remaining available (subject to an issuance limit of 1.4 million shares) at March 31, 2015. In addition, on May 4, 2015, we entered into a new Common Stock Purchase Agreement with Aspire, whereby Aspire is committed to purchase up to an aggregate of \$30 million of shares of NeoStem common stock over a P24M-month term. In addition, in September 2014, we entered into a loan and security agreement with Oxford Finance LLC and to date received \$15.0 million of a potential \$20.0 million in gross proceeds. In connection with the \$15.0 million loan, we repaid all outstanding amounts due under two loans from TD Bank, N.A. in the amount of approximately \$3.1 million, and paid debt offering/issuance costs and interim period interest, resulting in net proceeds from the loan of \$11.7 million. The additional \$5.0 million loan may be obtained if we enter into a strategic arrangement with respect to NBS10 and receive an upfront payment of not less than \$10.0 million in connection therewith, before September 19, 2015. Other sources of liquidity could include additional potential issuances of debt or equity securities in public or private financings, additional warrant exercises, option exercises, partnerships and/or collaborations, and/or sale of assets. In addition, we expect to continue to seek as appropriate grants for scientific and clinical studies from the California Institute for Regenerative Medicine, National Institutes of Health, Department of Defense, and other US and other governmental agencies and foundations. There can be no assurance that we will be successful in qualifying for or obtaining such grants. Our history of operating losses and liquidity challenges, may make it difficult for us to raise capital on acceptable terms or at all. The demand for the equity and debt of biopharmaceutical companies like ours is dependent upon many factors, including the general state of the financial markets. During times of extreme market volatility, capital may not be available on favorable terms, if at all. Our inability to obtain such additional capital could materially and adversely affect our business operations. We believe that our current cash balances and revenue generating activities, along with access to the 2014 Purchase Agreement, will be sufficient to fund the business through the next 12 months.

While we continue to seek capital through a number of means, there can be no assurance that additional financing will be available on acceptable terms, if at all, and our negotiating position in capital generating efforts may worsen as existing resources are used. Additional equity financing may be dilutive to our stockholders; debt financing, if available, may involve significant cash payment obligations and covenants that restrict our ability to operate as a business; our stock price may not reach levels necessary to induce option or warrant exercises; and asset sales may not be possible on terms we consider acceptable. If we are unable to raise the funds necessary to meet our long-term liquidity needs, we may have to delay or discontinue the acquisition and development of cell therapies, and/or the expansion of our business or raise funds on terms that we currently consider unfavorable.

Commitments and Contingencies

The following table summarizes our obligations to make future payments under current contracts as of March 31, 2015 (in thousands):

		-	<u> </u>	 <u></u>			
	Total	L	ess than 1 Year	1-3 Years	3-5 Years	Mo	ore than 5 Years

Long Term Debt	16,200.1		2,243.0	9,985.1	3,972.0		_
Purchase Obligations	750.6		333.6	417.0	_		_
Operating Lease Obligations	 8,252.6		1,940.0	3,668.5	 1,973.5		670.6
Total	\$ 26,927.2	\$	5,578.2	\$ 14,732.9	\$ 5,945.5	\$	670.6

Payments Due Period

Other significant commitments and contingencies include the following:

Under agreements with external clinical research organizations ("CROs"), we will incur expenses relating to our clinical trials for our therapeutic
product candidates in development. The timing and amount of these expenses are based on performance of services rendered and expenses as
incurred by the CROs and therefore, we cannot reasonably estimate the timing of these payments.

- Under certain license, collaboration, and merger agreements, we are required to pay royalties, milestone and/or other payments upon successful development and commercialization of products. However, successful research and development of pharmaceutical products is high risk, and most products fail to reach the market. Therefore, at this time the amount and timing of the payments, if any, are not known.
- From time to time, we are subject to legal proceedings and claims, either asserted or unasserted, that arise in the ordinary course of business. While the outcome of pending claims cannot be predicted with certainty, we do not believe that the outcome of any pending claims will have a material adverse effect on our financial condition or operating results.

Seasonality

NeoStem does not believe that its operations are seasonal in nature.

Off-Balance Sheet Arrangements

NeoStem does not have any off-balance sheet arrangements.

Critical Accounting Policies and Estimates

There have been no material changes in our critical accounting policies and estimates during the three months ended March 31, 2015, compared to those reported in our 2014 Form 10-K.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk is the risk of change in fair value of a financial instrument due to changes in interest rates, equity prices, creditworthiness, financing, exchange rates or other factors. Our primary market risk exposure relates to changes in interest rates. Our earnings and cash flows are subject to fluctuations due to changes in interest rates, principally in connection with our investments in marketable securities, which consist primarily of short-term money market funds and municipal debt securities. However, as of March 31, 2015, we held no investments or marketable securities. Additionally, our outstanding \$15.0 million long-term loan with Oxford Finance LLC, representing our largest component of debt, has a fixed interest rate until 2018, and is not subject to interest rate exposure. As a result, we have no material exposure to market risk related to interest rate changes as of March 31, 2015.

ITEM 4. CONTROLS AND PROCEDURES.

(a) Disclosure Controls and Procedures

Disclosure controls and procedures are the Company's controls and other procedures that are designed to ensure that information required to be disclosed in the reports that the Company files or submits under the Securities Exchange Act of 1934, as amended (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed in the reports that the Company files under the Exchange Act is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. Due to the inherent limitations of control systems, not all misstatements may be detected. These inherent limitations include the realities that judgments in decision-making can be faulty and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. Controls and procedures can only provide reasonable, not absolute, assurance that the above objectives have been met.

As of March 31, 2015, the Company carried out an evaluation, with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the Company's disclosure controls and procedures pursuant to Rule 13a-15(e) and 15d-15(e) of the Exchange Act. Based on that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective, at the reasonable assurance level, in ensuring that information required to be disclosed by the Company in the reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported, within the time periods specified

<u>Index</u>

in the SEC's rules and forms and is accumulated and communicated to management, including the Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

(b) Changes in Internal Control over Financial Reporting

There were no changes in the Company's internal control over financial reporting, as such term is defined in Exchange Act Rule 13a-15, that occurred during the Company's last quarter to which this Quarterly Report relates that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II

OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

There are no material changes to the disclosures previously reported in our 2014 Form 10-K.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors previously reported in our 2014 Form 10-K. See the risk factors set forth in the Company's Annual Report on our 2014 Form 10-K under the caption "Item 1 A - Risk Factors."

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

As previously reported, and as follows:

The Company has agreed to issue equity to certain consultants for services. Effective March 19, 2015, pursuant to a three month agreement for consulting services in investor relations and other specified matters, the Company agreed to issue to a consultant 40,000 shares of the Company's restricted common stock vesting as to 20,000 shares on execution and as to 20,000 shares on May 31, 2015.

The offer and sale by the Company of the securities described above were made in reliance upon the exemption from registration provided by Section 4(a)(2) of the Securities Act of 1933, as amended (the "Securities Act"), for transactions by an issuer not involving a public offering. The offer and sale of such securities were made without general solicitation or advertising to "accredited investors" as such term is defined in Rule 501(a) of Regulation D promulgated under the Securities Act and/or pursuant to Regulation D and may not be resold in the United States or to U.S. persons unless registered under the Securities Act or pursuant to an exemption from registration under the Securities Act.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Not applicable.

ITEM 4. MINE SAFETY DISCLOSURES.

Not applicable.

ITEM 5. OTHER INFORMATION.

Common Stock Purchase Agreement

On May 4, 2015, the Company entered into a common stock purchase agreement (the "2015 Purchase Agreement") with Aspire Capital Fund, LLC, ("Aspire Capital"), pursuant to which Aspire Capital is committed to purchase up to an aggregate of \$30.0 million of shares of NeoStem common stock (the "Purchase Shares"). The Company and Aspire Capital were parties to two Common Stock Purchase Agreements, the latest is the 2014 Purchase Agreement, dated March 10, 2014 (the "2014 Purchase Agreement").

Summary of Terms of 2015 Purchase Agreement

On any business day after the Commencement Date (as defined below) and over the 24-month term of the 2015 Purchase Agreement, the Company has the right, in its sole discretion, to present Aspire Capital with a purchase notice (each, a "Purchase Notice") directing Aspire Capital to purchase up to 50,000 Purchase Shares per business day; however, no sale pursuant to such a Purchase Notice may exceed five hundred thousand dollars (\$500,000) per business day, unless the Company and Aspire Capital mutually agree. The Company and Aspire Capital also may mutually agree to increase the number of shares that may be sold to as much as an additional 2,000,000 Purchase Shares per business day. The purchase price per Purchase Share pursuant to such Purchase Notice (the "Purchase Price") is the lower of (i) the lowest sale price for the NeoStem common stock on the date of sale or (ii) the average of the three lowest closing sale prices for the NeoStem common stock during the 12 consecutive business days

ending on the business day immediately preceding the purchase date. The applicable Purchase Price will be determined prior to delivery of any Purchase Notice.

In addition, on any date on which the Company submits a Purchase Notice to Aspire Capital for at least 50,000 Purchase Shares, the Company also has the right, in its sole discretion, to present Aspire Capital with a volume-weighted average price purchase notice (each, a "VWAP Purchase Notice") directing Aspire Capital to purchase an amount of NeoStem common stock equal to up to 30% of the aggregate shares of common stock traded on the next business day (the "VWAP Purchase Date"), subject to a maximum number of shares determined by the Company (the "VWAP Purchase Share Volume Maximum"). The purchase price per Purchase Share pursuant to such VWAP Purchase Notice (the "VWAP Purchase Price") shall be 95% of the volume weighted average price for NeoStem common stock traded on (i) the VWAP Purchase Date if the aggregate shares to be purchased on that date does not exceed the VWAP Purchase Share Volume Maximum, or (ii) the portion of such business day until such time as the aggregate shares to be purchased will equal the VWAP Purchase Share Volume Maximum. Further, if on the VWAP Purchase Date the sale price of NeoStem common stock falls below the greater of (i) 80% of the closing price of NeoStem common stock on the business day immediately preceding the VWAP Purchase Date or (ii) the price set by the Company in the VWAP Purchase Notice (the "VWAP Minimum Price Threshold"), the VWAP Purchase Amount will be determined using the percentage in the VWAP Purchase Notice of the total shares traded for such portion of the VWAP Purchase Date prior to the time that the sale price of NeoStem common stock sold during such portion of the VWAP Purchase Date prior to the time that the sale price of our common stock sold during such portion of the VWAP Purchase Date prior to the time that the sale price of our common stock fell below the VWAP Minimum Price Threshold.

The number of Purchase Shares covered by and timing of each Purchase Notice or VWAP Purchase Notice are determined at the Company's discretion. The aggregate number of shares that the Company can sell to Aspire Capital under the 2015 Purchase Agreement may in no case exceed 7,990,123 shares of our common stock (which is equal to approximately 19.9% of the common stock outstanding on the date of the 2015 Purchase Agreement, including the 364,837 shares of the Company's common stock (the "Commitment Shares") to be issued to Aspire Capital in consideration for entering into the 2015 Purchase Agreement) (the "Exchange Cap"), unless (i) shareholder approval is obtained to issue more, in which case the Exchange Cap will not apply, or (ii) stockholder approval has not been obtained and at any time the Exchange Cap is reached and at all times thereafter the average price paid for all shares issued under the 2015 Purchase Agreement (including the Commitment Shares) is equal to or greater than \$2.78 (the "Minimum Price"), a price equal to the consolidated closing bid price of the Company's common stock on the date of the 2015 Purchase Agreement; provided that at no time shall Aspire Capital (together with its affiliates) beneficially own more than 19.9% of the Company's common stock.

The 2015 Purchase Agreement contains customary representations, warranties, covenants, closing conditions and indemnification and termination provisions. Sales under the 2015 Purchase Agreement may commence only after certain conditions have been satisfied (the date on which all requisite conditions have been satisfied being referred to as the "Commencement Date"), which conditions include the delivery to Aspire Capital of a prospectus supplement covering the Commitment Shares and the Purchase Shares, approval for listing on Nasdaq of the Purchase Shares and the Commitment Shares, the issuance of the Commitment Shares to Aspire Capital, and the receipt by Aspire Capital of a customary opinion of counsel and other certificates and closing documents. Either party shall have the option to terminate the 2015 Purchase Agreement in the event the Commencement Date has not occurred by May 19, 2015. The 2015 Purchase Agreement may be terminated by the Company at any time, at its discretion, without any cost or penalty.

The Company's net proceeds will depend on the Purchase Price, the VWAP Purchase Price and the frequency of the Company's sales of Purchase Shares to Aspire Capital; subject to the maximum \$30.0 million available amount. The Company's delivery of Purchase Notices and VWAP Purchase Notices will be made subject to market conditions, in light of the Company's capital needs from time to time. The Company expects to use proceeds from sales of Purchase Shares for general corporate purposes and working capital requirements.

Registration Rights

In connection with the 2015 Purchase Agreement, the Company also entered into a Registration Rights Agreement (the "Registration Rights Agreement") with Aspire Capital, dated May 4, 2015. The Registration Rights Agreement provides, among other things, that the Company will register the sale of the Commitment Shares and the Purchase Shares to Aspire Capital pursuant to the Company's existing shelf registration statement or a new registration statement (the "Registration Statement"). The Company further agreed to keep the Registration Statement effective and to indemnify Aspire Capital for certain liabilities in connection with the sale of the Securities under the terms of the Registration Rights Agreement.

The foregoing descriptions of the 2015 Purchase Agreement and the Registration Rights Agreement are not complete and are qualified by reference to the full text of such documents, copies of which are filed as Exhibits 10.1 and 4.1, respectively,

REGISTRATION RIGHTS AGREEMENT

REGISTRATION RIGHTS AGREEMENT (this "**Agreement**"), dated as of May 4, 2015, by and between **NEOSTEM, INC.**, a Delaware corporation (the "**Company**"), and **ASPIRE CAPITAL FUND, LLC,** an Illinois limited liability company (together with it permitted assigns, the "**Buyer**"). Capitalized terms used herein and not otherwise defined herein shall have the respective meanings set forth in the Common Stock Purchase Agreement by and between the parties hereto, dated as of the date hereof (as amended, restated, supplemented or otherwise modified from time to time, the "**Purchase Agreement**").

WHEREAS:

- A. Upon the terms and subject to the conditions of the Purchase Agreement, the Company has agreed to issue to the Buyer, and the Buyer has agreed to purchase, (i) up to Thirty Million Dollars (\$30,000,000) of the Company's common stock, par value \$0.001 (the "Common Stock") (the "Purchase Shares"), and (ii) 364,837 shares of Common Stock as is required pursuant to Section 4(e) of the Purchase Agreement (the "Commitment Shares"); and
- B. To induce the Buyer to enter into the Purchase Agreement, the Company has agreed to provide certain registration rights under the Securities Act of 1933, as amended, and the rules and regulations thereunder, or any similar successor statute (collectively, the "1933 Act"), and applicable state securities laws.

NOW, THEREFORE, in consideration of the promises and the mutual covenants contained herein and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Company and the Buyer hereby agree as follows:

1. DEFINITIONS.

As used in this Agreement, the following terms shall have the following meanings:

- a. "New Registration Statement" means a Registration Statement filed after the date of this Agreement.
- b. "**Person**" means any person or entity including any corporation, a limited liability company, an association, a partnership, an organization, a business, an individual, a governmental or political subdivision thereof or a governmental agency.
- c. **"Prospectus"** means the base prospectus, including all documents incorporated therein by reference, included in the Shelf Registration Statement or a New Registration Statement (each as hereinafter defined), as it may be supplemented by the Prospectus Supplement (as hereinafter defined), in the form in which such prospectus and/or Prospectus Supplement have most recently been filed by the Company with the SEC pursuant to Rule 424(b) under the 1933 Act, together with any then issued "issuer free writing prospectus(es)," as defined in Rule 433 of the 1933 Act, relating to the Registrable Securities.
- d. "Register," "registered," and "registration" refer to a registration effected by preparing and filing one or more registration statements of the Company in compliance with the 1933 Act and pursuant to Rule 415 under the 1933 Act or any successor rule providing for offering securities on a continuous basis ("Rule 415"), and the declaration or ordering of effectiveness of such registration statement(s) by the U.S. Securities and Exchange Commission (the "SEC").
- e. "**Registrable Securities**" means the Purchase Shares which may from time to time be, issued or issuable to the Buyer upon purchases of the Available Amount under the Purchase Agreement (without regard to any limitation or restriction on purchases) and the Commitment Shares issued or issuable to the Buyer and any shares

of capital stock issued or issuable with respect to the Purchase Shares, the Commitment Shares or the Purchase Agreement as a result of any stock split, stock dividend, recapitalization, exchange or similar event or otherwise, without regard to any limitation on purchases under the Purchase Agreement.

- f. "Registration Statement" means any registration statement of the Company, as amended when it became or becomes effective, including all documents filed as part thereof or incorporated by reference therein, and including any information contained in a Prospectus subsequently filed with the Commission pursuant to Rule 424(b) under the 1933 Act or deemed to be a part of such registration statement pursuant to Rule 430B or 462(b) of the 1933 Act, covering the sale of the Registrable Securities, which may be either the Shelf Registration Statement or a New Registration Statement.
 - g. "Shelf Registration Statement" means the Company's existing registration statement on Form S-3 (File No. 333-183543).

2. REGISTRATION.

- a. Mandatory Registration. The Company shall within one (1) Business Day from the date the Commitment Shares are issued to the Buyer file with the SEC a prospectus supplement to the Registration Statement, which prospectus supplement shall specifically relate to the Registrable Securities (the "Prospectus Supplement"). The Buyer and its counsel have had a reasonable opportunity to review and comment upon such Prospectus Supplement prior to its filing with the SEC. Buyer shall furnish all information reasonably requested by the Company for inclusion therein. The Company shall use reasonable best efforts to keep the Registration Statement effective pursuant to Rule 415 promulgated under the 1933 Act and available for sales of all of the Registrable Securities at all times until the earlier of (i) the date as of which the Buyer may sell all of the Registrable Securities without restriction pursuant to Rule 144 promulgated under the 1933 Act (or successor thereto), (ii) the date on which (A) the Company shall have sold all the Registrable Securities and no Available Amount remains under the Purchase Agreement, or (iii) the date on which the Purchase Agreement is terminated (the "Registration Period"). The Registration Statement (including any amendments or supplements thereto and prospectuses contained therein) shall not contain any untrue statement of a material fact or omit to state a material fact required to be stated therein, or necessary to make the statements therein, in light of the circumstances in which they were made, not misleading.
- b. <u>Rule 424 Prospectus</u>. The Company shall, as required by applicable securities regulations, file with the SEC, pursuant to Rule 424 promulgated under the 1933 Act, the Prospectus, including any amendments or supplements thereto, to be used in connection with sales of the Registrable Securities under the Registration Statement. The Buyer and its counsel shall have a reasonable opportunity to review and comment upon such Prospectus prior to its filing with the SEC. The Buyer shall use its reasonable best efforts to comment upon such Prospectus within one (1) Business Day from the date the Buyer receives the final version of such prospectus.
- c. <u>Sufficient Number of Shares Registered</u>. In the event the number of shares available under the Registration Statement is insufficient to cover the Registrable Securities, the Company shall, to the extent necessary and permissible, amend the Registration Statement or file a New Registration Statement so as to cover all of such Registrable Securities as soon as practicable, but in any event not later than ten (10) Business Days after the necessity therefor arises. The Company shall use its reasonable best efforts to cause such amendment and/or New Registration Statement to become effective as soon as practicable following the filing thereof.

3. RELATED OBLIGATIONS.

With respect to the Registration Statement and whenever any Registrable Securities are to be registered pursuant to Sections 2(a) and (c), including on the Shelf Registration Statement or on any New Registration Statement, the Company shall use its reasonable best efforts to effect the registration of the Registrable Securities in accordance with the intended method of disposition thereof and, pursuant thereto, the Company shall have the following obligations:

a. The Company shall prepare and file with the SEC such amendments (including post-effective amendments) and supplements to the Shelf Registration Statement and any New Registration Statement and any

Prospectus used in connection with such Registration Statement, as may be necessary to keep the Shelf Registration Statement or any New Registration Statement effective at all times during the Registration Period, and, during such period, comply with the provisions of the 1933 Act with respect to the disposition of all Registrable Securities of the Company covered by the Shelf Registration Statement or any New Registration Statement until such time as all of such Registrable Securities shall have been disposed of in accordance with the intended methods of disposition by the seller or sellers thereof as set forth in such Registration Statement.

- b. The Company shall submit to the Buyer for review and comment any disclosure in the Registration Statement and all amendments and supplements thereto containing information provided by the Buyer for inclusion in such document and any descriptions or disclosure regarding the Buyer, the Purchase Agreement, including the transactions contemplated thereby, or this Agreement at least two (2) Business Days prior to their filing with the SEC, and not file any document in a form to which Buyer reasonably objects. Upon request of the Buyer, the Company shall provide to the Buyer all disclosure in the Registration Statement and all amendments and supplements thereto (other than prospectus supplements that consist only of a copy of a filed Form 10-Q) at least two (2) Business Days prior to their filing with the SEC, and not file any document in a form to which Buyer reasonably and timely objects. The Buyer shall use its reasonable best efforts to comment upon the Registration Statement and any amendments or supplements thereto within two (2) Business Days from the date the Buyer receives the final version thereof. The Company shall furnish to the Buyer, without charge, any correspondence from the SEC or the staff of the SEC to the Company or its representatives relating to the Shelf Registration Statement or any New Registration Statement.
- c. Upon request of the Buyer, the Company shall furnish to the Buyer, (i) promptly after the same is prepared and filed with the SEC, at least one copy of the Registration Statement and any amendment(s) thereto, including all financial statements and schedules, all documents incorporated therein by reference and all exhibits, (ii) upon the effectiveness of any amendment(s) to a Registration Statement, a copy of the Prospectus included in such Registration Statement (or such other number of copies as the Buyer may reasonably request) and (iii) such other documents, including copies of any preliminary or final prospectus, as the Buyer may reasonably request from time to time in order to facilitate the disposition of the Registrable Securities owned by the Buyer.
- d. The Company shall use reasonable best efforts to (i) register and qualify, unless an exemption from registration and qualification is available, the Registrable Securities covered by a Registration Statement under such other securities or "blue sky" laws of such jurisdictions in the United States as the Buyer reasonably requests, (ii) prepare and file in those jurisdictions, such amendments (including post-effective amendments) and supplements to such registrations and qualifications as may be necessary to maintain the effectiveness thereof during the Registration Period, (iii) take such other actions as may be necessary to maintain such registrations and qualifications in effect at all times during the Registration Period, and (iv) take all other actions reasonably necessary or advisable to qualify the Registrable Securities for sale in such jurisdictions; provided, however, that the Company shall not be required in connection therewith or as a condition thereto to (x) qualify to do business in any jurisdiction where it would not otherwise be required to qualify but for this Section 3(d), (y) subject itself to general taxation in any such jurisdiction, or (z) file a general consent to service of process in any such jurisdiction. The Company shall promptly notify the Buyer who holds Registrable Securities of the receipt by the Company of any notification with respect to the suspension of the registration or qualification of any of the Registrable Securities for sale under the securities or "blue sky" laws of any jurisdiction in the United States or its receipt of actual notice of the initiation or threatening of any proceeding for such purpose.
- e. As promptly as practicable after becoming aware of such event or facts, the Company shall notify the Buyer in writing if the Company has determined that the Prospectus included in any Registration Statement, as then in effect, includes an untrue statement of a material fact or omits to state a material fact required to be stated therein or necessary to make the statements therein, in light of the circumstances under which they were made, not misleading, and promptly prepare a supplement or amendment to such Registration Statement to correct such untrue statement or omission, and, upon the Buyer's request, deliver a copy of such supplement or amendment to the Buyer. In providing this notice to the Buyer, the Company shall not include any other information about the facts underlying the Company's determination and shall not in any way communicate any material nonpublic information about the Company or the Common Stock to the Buyer. The Company shall also promptly notify the Buyer in writing (i) when a prospectus or any prospectus supplement or post-effective amendment has been filed, and when a Registration

Statement or any post-effective amendment has become effective (notification of such effectiveness shall be delivered to the Buyer by facsimile or e-mail on the same day of such effectiveness), (ii) of any request by the SEC for amendments or supplements to any Registration Statement or related prospectus or related information, and (iii) of the Company's reasonable determination that a post-effective amendment to a Registration Statement would be appropriate.

- f. The Company shall use its reasonable best efforts to prevent the issuance of any stop order or other suspension of effectiveness of any Registration Statement, or the suspension of the qualification of any Registrable Securities for sale in any jurisdiction and, if such an order or suspension is issued, to obtain the withdrawal of such order or suspension at the earliest practicable time and to notify the Buyer of the issuance of such order and the resolution thereof or its receipt of actual notice of the initiation or threat of any proceeding for such purpose.
- g. The Company shall (i) cause all the Registrable Securities to be listed on each securities exchange on which securities of the same class or series issued by the Company are then listed, if any, if the listing of such Registrable Securities is then permitted under the rules of such exchange, or (ii) secure designation and quotation of all the Registrable Securities on the Principal Market (as such term is defined in the Purchase Agreement). The Company shall pay all fees and expenses in connection with satisfying its obligation under this Section.
- h. The Company shall cooperate with the Buyer to facilitate the timely preparation and delivery of certificates (not bearing any restrictive legend) representing the Registrable Securities to be offered pursuant to any Registration Statement and enable such certificates to be in such denominations or amounts as the Buyer may reasonably request and registered in such names as the Buyer may request.
 - i. The Company shall at all times provide a transfer agent and registrar with respect to its Common Stock.
- j. If reasonably requested by the Buyer, the Company shall (i) immediately incorporate in a prospectus supplement or post-effective amendment such information as the Buyer believes should be included therein relating to the sale and distribution of Registrable Securities, including, without limitation, information with respect to the number of Registrable Securities being sold, the purchase price being paid therefor and any other terms of the offering of the Registrable Securities; (ii) make all required filings of such prospectus supplement or post-effective amendment as soon as notified of the matters to be incorporated in such prospectus supplement or post-effective amendment; and (iii) supplement or make amendments to any Registration Statement.
- k. The Company shall use its reasonable best efforts to cause the Registrable Securities covered by any Registration Statement to be registered with or approved by such other governmental agencies or authorities as may be necessary to consummate the disposition of such Registrable Securities.
- l. If requested by the Buyer at any time, the Company shall require its counsel to deliver to the Buyer a written confirmation of whether or not the effectiveness of a Registration Statement has lapsed at any time for any reason (including, without limitation, the issuance of a stop order) and whether or not the Registration Statement is current and available to the Company for sale of all of the Registrable Securities.
- m. The Company shall take all other reasonable actions necessary to expedite and facilitate disposition by the Buyer of Registrable Securities pursuant to any Registration Statement.

4. OBLIGATIONS OF THE BUYER.

a. The Company shall notify the Buyer in writing of the information the Company reasonably requires from the Buyer in connection with any Registration Statement hereunder. The Buyer shall furnish to the Company such information regarding itself, the Registrable Securities held by it and the intended method of disposition of the Registrable Securities held by it as shall be reasonably required to effect the registration of such Registrable Securities and shall execute such documents in connection with such registration as the Company may reasonably request.

b. The Buyer agrees to cooperate with the Company as reasonably requested by the Company in connection with the preparation and filing of any amendments and supplements to any Registration Statement hereunder.

5. EXPENSES OF REGISTRATION.

All reasonable expenses, other than sales or brokerage commissions, incurred in connection with registrations, filings or qualifications pursuant to Sections 2 and 3, including, without limitation, all registration, listing and qualifications fees, printers and accounting fees, and fees and disbursements of counsel for the Company, shall be paid by the Company.

6. <u>INDEMNIFICATION</u>.

a. To the fullest extent permitted by law, the Company will, and hereby does, indemnify, hold harmless and defend the Buyer, each Person, if any, who controls the Buyer, the members, the directors, officers, partners, employees, agents, representatives of the Buyer and each Person, if any, who controls the Buyer within the meaning of the 1933 Act or the Securities Exchange Act of 1934, as amended (the "1934") Act") (each, an "Indemnified Person"), against any losses, claims, damages, liabilities, judgments, fines, penalties, charges, costs, attorneys' fees, amounts paid in settlement or expenses, joint or several, (collectively, "Claims") incurred in investigating, preparing or defending any action, claim, suit, inquiry, proceeding, investigation or appeal taken from the foregoing by or before any court or governmental, administrative or other regulatory agency, body or the SEC, whether pending or threatened, whether or not an indemnified party is or may be a party thereto ("Indemnified Damages"), to which any of them may become subject insofar as such Claims (or actions or proceedings, whether commenced or threatened, in respect thereof) arise out of or are based upon: (i) any untrue statement or alleged untrue statement of a material fact in the Registration Statement, any New Registration Statement or any post-effective amendment thereto or in any filing made in connection with the qualification of the offering under the securities or other "blue sky" laws of any jurisdiction in which Registrable Securities are offered ("Blue Sky Filing"), or the omission or alleged omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading, (ii) any untrue statement or alleged untrue statement of a material fact contained in the final Prospectus or the omission or alleged omission to state therein any material fact necessary to make the statements made therein, in light of the circumstances under which the statements therein were made, not misleading, (iii) any violation or alleged violation by the Company of the 1933 Act, the 1934 Act, any other law, including, without limitation, any state securities law, or any rule or regulation thereunder relating to the offer or sale of the Registrable Securities pursuant to the Registration Statement or any New Registration Statement, or (iv) any material violation by the Company of this Agreement (the matters in the foregoing clauses (i) through (iv) being, collectively, "Violations"). The Company shall reimburse each Indemnified Person promptly as such expenses are incurred and are due and payable, for any reasonable legal fees or other reasonable expenses incurred by them in connection with investigating or defending any such Claim. Notwithstanding anything to the contrary contained herein, the indemnification agreement contained in this Section 6(a): (i) shall not apply to a Claim by an Indemnified Person arising out of or based upon a Violation which occurs in reliance upon and in conformity with information furnished in writing to the Company by such Indemnified Person expressly for use in connection with the preparation of the Registration Statement, any New Registration Statement, the Prospectus or any such amendment thereof or supplement thereto, if such prospectus was timely made available by the Company pursuant to Section 3(c) or Section 3(e); (ii) with respect to any superceded prospectus, shall not inure to the benefit of any such person from whom the person asserting any such Claim purchased the Registrable Securities that are the subject thereof (or to the benefit of any person controlling such person) if the untrue statement or omission of material fact contained in the superceded prospectus was corrected in the revised prospectus, as then amended or supplemented, if such revised prospectus was timely made available by the Company pursuant to Section 3(c) or Section 3(e), and the Indemnified Person was promptly advised in writing not to use the incorrect prospectus prior to the use giving rise to a violation and such Indemnified Person, notwithstanding such advice, used it; (iii) shall not be available to the extent such Claim is based on a failure of the Buyer to deliver or to cause to be delivered the prospectus made available by the Company, if such prospectus was timely made available by the Company pursuant to Section 3(c) or Section 3(e); and (iv) shall not apply to amounts paid in settlement of any Claim if such settlement is effected without the prior written consent of the Company, which consent shall not be unreasonably withheld. Such indemnity shall remain in full force and effect regardless of any investigation made by or on behalf of the Indemnified Person.

- b. In connection with the Registration Statement, any New Registration Statement or Prospectus, the Buyer agrees to severally and not jointly indemnify, hold harmless and defend, to the same extent and in the same manner as is set forth in Section 6(a), the Company, each of its directors, each of its officers who signed the Registration Statement or signs any New Registration Statement, each Person, if any, who controls the Company within the meaning of the 1933 Act or the 1934 Act (collectively and together with an Indemnified Person, an "Indemnified Party"), against any Claim or Indemnified Damages to which any of them may become subject, under the 1933 Act, the 1934 Act or otherwise, insofar as such Claim or Indemnified Damages arise out of or are based upon any Violation, in each case to the extent, and only to the extent, that such Violation occurs in reliance upon and in conformity with written information about the Buyer set forth on Exhibit A attached hereto or updated from time to time in writing by the Buyer and furnished to the Company by the Buyer expressly for inclusion in the Shelf Registration Statement or Prospectus or any New Registration Statement; and, subject to Section 6(d), the Buyer will reimburse any legal or other expenses reasonably incurred by them in connection with investigating or defending any such Claim; provided, however, that the indemnity agreement contained in this Section 6(b) and the agreement with respect to contribution contained in Section 7 shall not apply to amounts paid in settlement of any Claim if such settlement is effected without the prior written consent of the Buyer, which consent shall not be unreasonably withheld. Such indemnity shall remain in full force and effect regardless of any investigation made by or on behalf of such Indemnified Party.
- c. Promptly after receipt by an Indemnified Person or Indemnified Party under this Section 6 of notice of the commencement of any action or proceeding (including any governmental action or proceeding) involving a Claim, such Indemnified Person or Indemnified Party shall, if a Claim in respect thereof is to be made against any indemnifying party under this Section 6, deliver to the indemnifying party a written notice of the commencement thereof, and the indemnifying party shall have the right to participate in, and, to the extent the indemnifying party so desires, jointly with any other indemnifying party similarly noticed, to assume control of the defense thereof with counsel mutually satisfactory to the indemnifying party and the Indemnified Person or the Indemnified Party, as the case may be; provided, however, that an Indemnified Person or Indemnified Party shall have the right to retain its own counsel with the fees and expenses to be paid by the indemnifying party, if, in the reasonable opinion of counsel retained by the indemnifying party, the representation by such counsel of the Indemnified Person or Indemnified Party and the indemnifying party would be inappropriate due to actual or potential differing interests between such Indemnified Person or Indemnified Party and any other party represented by such counsel in such proceeding. The Indemnified Party or Indemnified Person shall cooperate fully with the indemnifying party in connection with any negotiation or defense of any such action or claim by the indemnifying party and shall furnish to the indemnifying party all information reasonably available to the Indemnified Party or Indemnified Person which relates to such action or claim. The indemnifying party shall keep the Indemnified Party or Indemnified Person fully apprised at all times as to the status of the defense or any settlement negotiations with respect thereto. No indemnifying party shall be liable for any settlement of any action, claim or proceeding effected without its written consent, provided, however, that the indemnifying party shall not unreasonably withhold, delay or condition its consent. No indemnifying party shall, without the consent of the Indemnified Party or Indemnified Person, consent to entry of any judgment or enter into any settlement or other compromise which does not include as an unconditional term thereof the giving by the claimant or plaintiff to such Indemnified Party or Indemnified Person of a release from all liability in respect to such claim or litigation. Following indemnification as provided for hereunder, the indemnifying party shall be subrogated to all rights of the Indemnified Party or Indemnified Person with respect to all third parties, firms or corporations relating to the matter for which indemnification has been made. The failure to deliver written notice to the indemnifying party within a reasonable time of the commencement of any such action shall not relieve such indemnifying party of any liability to the Indemnified Person or Indemnified Party under this Section 6, except to the extent that the indemnifying party is prejudiced in its ability to defend such action.

COMMON STOCK PURCHASE AGREEMENT

COMMON STOCK PURCHASE AGREEMENT (the "**Agreement**"), dated as of May 4, 2015, by and between **NEOSTEM, INC.**, a Delaware corporation (the "**Company**"), and **ASPIRE CAPITAL FUND, LLC**, an Illinois limited liability company (the "**Buyer**"). Capitalized terms used herein and not otherwise defined herein are defined in Section 10 hereof.

WHEREAS: Subject to the terms and conditions set forth in this Agreement, the Company wishes to sell to the Buyer, and the Buyer wishes to buy from the Company, up to Thirty Million Dollars (\$30,000,000) of the Company's common stock, par value \$0.001 (the "Common Stock"). The shares of Common Stock to be purchased hereunder are referred to herein as the "Purchase Shares."

NOW THEREFORE, the Company and the Buyer hereby agree as follows:

1. PURCHASE OF COMMON STOCK.

Subject to the terms and conditions set forth in this Agreement, the Company has the right to sell to the Buyer, and the Buyer has the obligation to purchase from the Company, Purchase Shares as follows:

- (a) <u>Commencement of Purchases of Common Stock</u>. After the Commencement Date (as defined below), the purchase and sale of Purchase Shares hereunder shall occur from time to time upon written notices by the Company to the Buyer on the terms and conditions as set forth herein following the satisfaction of the conditions (the "**Commencement**") as set forth in Sections 6 and 7 below (the date of satisfaction of such conditions, the "**Commencement Date**").
- (b) The Company's Right to Require Regular Purchases. Subject to the terms and conditions of this Agreement, on any given Business Day after the Commencement Date, the Company shall have the right but not the obligation to direct the Buyer by its delivery to the Buyer of a Purchase Notice from time to time, and the Buyer thereupon shall have the obligation, to buy the number of Purchase Shares specified in such notice, up to a maximum of 50,000 Purchase Shares, on such Business Day (as long as such notice is delivered on or before 5:00 p.m. eastern time on such Business Day) (each such purchase, a "Regular Purchase") at the Purchase Price on the Purchase Date; however, in no event shall the Purchase Amount of a Regular Purchase exceed five hundred thousand dollars (\$500,000) per Business Day, unless the Buyer and the Company mutually agree. The Company and the Buyer may mutually agree to increase the number of Purchase Shares that may be sold per Regular Purchase to as much as an additional 2,000,000 Purchase Shares per Business Day. The Company may deliver additional Purchase Notices to the Buyer from time to time so long as the most recent purchase has been completed. The share amounts in the first sentence of this Section 1(b) this Agreement shall be appropriately adjusted for any reorganization, recapitalization, non-cash dividend, stock split, reverse stock split, or other similar transaction.
- (c) <u>VWAP Purchases</u>. Subject to the terms and conditions of this Agreement, in addition to purchases of Purchase Shares as described in Section 1(b) above, with one Business Day's prior written notice, the Company shall also have the right but not the obligation to direct Buyer by the Company's delivery to Buyer of a VWAP Purchase Notice from time to time, and Buyer thereupon shall have the obligation, to buy the VWAP Purchase Share Percentage of the trading volume of the Common Stock on the VWAP Purchase Date up to the VWAP Purchase Share Volume Maximum on the VWAP Purchase Date (as long as such notice is delivered on or before 5:00 p.m. eastern time on the Business Day immediately preceding the VWAP Purchase Date) (each such purchase, a "**VWAP Purchase**") at the VWAP Purchase Price. The Company may deliver a VWAP Purchase Notice to the Buyer only on a date on which the Company also submitted a Purchase Notice for a Regular Purchase of at least 50,000 Purchase Shares to the Buyer. A VWAP Purchase shall automatically be deemed completed at such time on the VWAP Purchase Date that the sale price of the Common Stock falls below the VWAP Minimum Price Threshold; in such circumstance, the VWAP

Purchase Amount shall be calculated using the VWAP Purchase Share Percentage of the aggregate shares traded for such portion of the VWAP Purchase Date prior to the time that the sale price of the Common Stock fell below the VWAP Minimum Price Threshold and the VWAP Purchase Price shall be calculated using the volume weighted average price of Common Stock sold during such portion of the VWAP Purchase Date prior to the time that the sale price of the Common Stock fell below the VWAP Minimum Price Threshold. Each VWAP Purchase Notice must be accompanied by instructions to the Company's transfer Agent to immediately issue to the Buyer an amount of Common Stock equal to the VWAP Purchase Share Estimate, a good faith estimate by the Company of the number of Purchase Shares that the Buyer shall have the obligation to buy pursuant to the VWAP Purchase Notice. In no event shall the Buyer pursuant to any VWAP Purchase, purchase a number of Purchase Shares that exceeds the VWAP Purchase Share Estimate issued on the VWAP Purchase Date in connection with such VWAP Purchase Notice; however, the Buyer will immediately return to the Company any amount of Common Stock issued pursuant to the VWAP Purchase Share Estimate that exceeds the number of Purchase Shares the Buyer actually purchases in connection with such VWAP Purchase. Upon completion of each VWAP Purchase Date, the Buyer shall submit to the Company a confirmation of the VWAP Purchase in form and substance reasonably acceptable to the Company. The Company may deliver additional VWAP Purchase Notices to the Buyer from time to time so long as the most recent purchase has been completed.

(d) <u>Payment for Purchase Shares</u>. For each Regular Purchase, the Buyer shall pay to the Company an amount equal to the Purchase Amount as full payment for such Purchase Shares via wire transfer of immediately available funds on the same Business Day that the Buyer receives such Purchase Shares. For each VWAP Purchase, the Buyer shall pay to the Company an amount equal to the VWAP Purchase Amount as full payment for such Purchase Shares via wire transfer of immediately available funds on the third Business Day following the VWAP Purchase Date. All payments made under this Agreement shall be made in lawful money of the United States of America via wire transfer of immediately available funds to such account as the Company may from time to time designate by written notice in accordance with the provisions of this Agreement. Whenever any amount expressed to be due by the terms of this Agreement is due on any day that is not a Business Day, the same shall instead be due on the next succeeding day that is a Business Day.

(e) [Intentionally Omitted.]

- (f) <u>Records of Purchases</u>. The Buyer and the Company shall each maintain records showing the remaining Available Amount at any given time and the dates and purchase amounts for each purchase, or shall use such other method reasonably satisfactory to the Buyer and the Company to reconcile the remaining Available Amount.
- (g) <u>Taxes</u>. The Company shall pay any and all transfer, stamp or similar taxes that may be payable with respect to the issuance and delivery of any shares of Common Stock to the Buyer made under this Agreement.
- (h) <u>Compliance with Principal Market Rules</u> Notwithstanding anything in this Agreement to the contrary, and in addition to the limitations set forth in Section 1(e), the total number of shares of Common Stock that may be issued under this Agreement, including the 364,837 Commitment Shares (as defined in Section 4(e) hereof), shall be limited to 7,990,123 shares of Common Stock (the "Exchange Cap"), which equals 19.9% of the Company's outstanding shares of Common Stock as of the date hereof, unless stockholder approval is obtained to issue more than such 19.9%. The Exchange Cap shall be appropriately adjusted for any stock dividend, stock split, reverse stock split or similar transaction. The foregoing limitation shall not apply if stockholder approval has not been obtained and at any time the Exchange Cap is reached and at all times thereafter the average price paid for all shares of Common Stock issued under this Agreement (including the Commitment Shares) is equal to or greater than \$2.78 (the "Minimum Price"), a price equal to the consolidated bid price on the date hereof (in such circumstance, for purposes of the Principal Market, the transaction contemplated hereby would not be "below market" and the Exchange Cap would not apply). Notwithstanding the foregoing, the Company shall not be required or permitted to issue, and the Buyer shall not be required to purchase, any shares of Common Stock under this Agreement if such issuance would violate the rules or regulations of the Principal Market.
 - (i) <u>Beneficial Ownership Limitation</u>. The Company shall not issue and the Buyer shall not purchase any shares of Common Stock under this Agreement if such shares proposed to be issued and sold, when aggregated with all other shares of Common Stock then owned beneficially (as calculated pursuant to

Section 13(d) of the Exchange Act and Rule 13d-3 promulgated thereunder) by the Buyer and its affiliates would result in the beneficial ownership by the Buyer and its affiliates of more than 19.99% of the then issued and outstanding shares of Common Stock.

Any real property and facilities held under lease by the Company and any of its Subsidiaries are held by them under valid, subsisting and enforceable leases with such exceptions as are not material and do not interfere with the use made and proposed to be made of such property and buildings by the Company and its Subsidiaries.

The Company shall maintain the Common Stock's listing on the Principal Market.
